VOL. XCVII—NO. 19. WILMINGTON, N. C., TUESDAY MORNING, OCTOBER 12, 1915 WHOLE NUMBER 39,349

WASHINGTON, D. C. Library of Congress.

WILSON CALLS UPON AMERICANS TO BE MORE THAN "NEUTRAL"; THAT IS A "NEGATIVE WORD", HE DECLARES

Should "Take Their Stand for America First, Last and All the Time."

ANXIOUS FOR A LINE-UP

"Let the Men Who Are Thinking First of Other Countries Stand on One Side."

Declares Faith in Loyalty of Most Naturalized Citizens.

Washington, October 11. — A demand upon all Americans on pain of ostracism to be more than neutral in regard to the European war, to take their stand for America first, last and all the time, was voiced by President Wilson here today in a speech at the celebration of the twenty-fifth anniversary of the founding of the Daughters of the American Revolution. The United States, the President said, was not merely trying to keep out of trouble, but was trying to preserve the foundations upon which peace could be rebuilt.

"Peace can be rebuilt," he added, "only upon the ancient and accepted principles of international law; only upon those things which remind nations of their duties to each other and, deeper than that, of their duties to mankind and humanity. America has a great cause, which is not confined to the American continent. It is the cause of humanity itself."

Faith in Foreign Born.

Declaring his faith in the loyalty of the great body of naturalized citizens of foreign birth, the President said he believed the impression was too general that a very large number of these citizens were without a sufficient affection for the American ideal.

"But I am in a hurry to have a line-up," he explained, "and let the men who are thinking first of other countries stand on one side, and those who are for America first, last and all the time, on the other."

The President's address follows:

"There is a very great thrill to be had from the memories of the American Revolution, but the American revolution was a beginning, not a consummation; and the duty laid upon us by that beginning is the duty of bringing the things then begun to a noble triumph of completion. For it seems to me that the peculiarity of patriotism in America is that it is not a mere sentiment. It is an active principle of conduct. It is something that was born into the world, not to please it, but to regenerate it. * * *

"The American revolution was the birth of a nation; it was the creation of a great free republic, based upon traditions of personal liberty which theretofore had been confined to a single little island, but which it was purposed should spread to all mankind. And the singular fascination of American history is that it has been a process of constant recreation, of making over again in each generation the thing which was conceived at first. You know how peculiarly necessary that has been in our case because America has not grown by the mere multiplication of the original stock. It is easy to preserve tradition with continuity of blood. * * * but it is not so easy when that race is constantly being renewed and augmented from stocks that did not carry or originate the same principles.

Principles Easily Infected.

"So, from generation to generation, strangers have had to be indoctrinated with the principles of the American family, and the wonder and the beauty of it all has been that the infection has been so generously easy, for the principles of liberty are united with the principles of hope. Every individual, as well as every nation, wishes to realize the best things that is in him. * * * It has happened in a way that I think fascinates the imagination that we have not only been augmented by additions from outside, but that we have been greatly stimulated by those additions.

"Living in the easy prosperity of a free people, * * * we did not realize how hard the task of liberty is, and how rare the privilege of liberty is; and men were drawn out of every climate and out of every race, because of an irresistible attraction of their spirits to the American ideal. They thought of America as lifting * * * a torch to light the pathway of men to the things that they desire, and men of all sorts and conditions struggled towards that light and came to our shores with an eager desire to realize it, and a hunger for it such as some of us no longer felt, for we were as if we were satiated and sated and were indulging ourselves after a fashion that

(Continued on Page Eight.)

NORTHERN SERBIA SCENE OF BATTLE

Teutons Endeavoring to Force Way to Turkey.

REVIEW OF WAR NEWS

French Claim Further Progress of Allies in the Artois and Champagne. Russians Have Resumed Attack Around Dvinsk.

The battle is in full swing along the northern frontier of Serbia where the Austro-Germans are pounding at the Serbian positions in an endeavor to cut their way through the kingdom to relieve their Turkish ally. Although the main Serbian forces are declared to be waiting farther south for the crucial test, the Teutons are not gaining ground unopposed in the north. The war office at Nish says that the losses on both sides are enormous, particularly in officers, and that the Serbs are valiantly resisting the invaders and at numerous points have been victorious over them.

Coming to the aid of their compatriots are the Serb troops from Albania and seven divisions which have been on duty along the Bulgarian front, while unofficial advices say thousands of untrained men and many women are preparing to contest the Teutons' march across Serbia.

In addition to the capture of the old capital, Belgrade, the heights to the south of the city have been taken, the German army has crossed the Danube and battles have developed to the west along the river Save. Berlin asserts that the Germans have captured thus far 14 officers and 1,542 men and 17 guns. Near Obrenovatz, on the Save front, the Serbs say the Germans are using asphyxiating gas in abundance.

Further progress for the Allies' forces against the Germans in the Artois and Champagne regions is claimed by Paris, but elsewhere along the line from Belgium to the Swiss frontier only artillery engagements have been fought. Paris claims a gain in ground on the road between Souchez and Angres, the capture of a block house in the Givenchy wood, in Artois, and the taking of a German fortified work near Tahure in Champagne.

The Russians around Dvinsk again have returned to the attack, but their efforts, according to Berlin, resulted in a repulse. Berlin claims the Russians have been driven back near Beziminnaja-Wilsiolucha by General von Linsingen's army and to the northwest of Tarnopol by General von Bothmer's forces.

Some light on the recent heavy fighting in France is given in statements by Sir John French, the British commander-in-chief, and the French war office. General French declares that in the German attacks against the British line on LaBassee canal, to the

(Continued on Page Eight.)

DAY IN WAR ZONE NOT EVENTFUL ONE

German Repulse of Russian Attacks Most Significant.

RUMANIA SHOWS ALARM

Actual Military Move Against Serbia Not Yet Indicated, Except Possible Assault on Railroad—Parliament Meets Today.

London, October 11. — While the Teutonic armies continue to advance into Serbia, there is nothing to indicate an actual military move by Bulgaria against Serbia, except a report that an assault is momentarily expected on the railroad connecting Nish and Saloniki. Rumania is showing increasing alarm on account of the threatened military movement by Bulgaria and the central powers in close proximity to her frontiers, but neither Athens nor Bucharest is exhibiting any readiness to depart from a policy of benevolent neutrality toward the triple entente powers.

The only significant point in any of the official reports of the fighting along the major fronts today was the statement from Berlin that Field Marshal von Hindenburg had repulsed the Russian attacks on the Dvinsk front, which seemingly would indicate that for the first time since the German drive through Poland began the Austro-Germans are making no big offensive at any point along the whole eastern front.

Of the fighting in the west the French official communication says the Germans left between 7,000 and 8,000 dead before the positions which they tried in vain to recapture at Loos recently.

British Parliament Meets Today.

The meeting of the British Parliament tomorrow promises to be of unusual importance. The Anglo-French loan of $500,000,000 obtained in the United States will be discussed and ratified.

The country will await with far greater interest, however, for whatever light Sir Edward Grey may throw upon the Balkan developments and whether he or Premier Asquith will reveal the cabinet's policy on the vital alternative which confronts it. That alternative is whether Great Britain and France will throw all the forces they can command into the Balkan peninsula for the protection of Serbia and Greece against Teutonic-Bulgarian aggression, or will let events there take their course. The military and newspaper critics are agreed that one or the other paths must be followed.

The influential Westminsteer Gazette seconds the protest of the Times' military expert against submitting to Ger-

WILSON FORMALLY SANCTIONS ACTION OF THE CONFEREES

European Governments May Also Extend Recognition to Carranza Government.

PLEDGE OF CARRANZA

"Everybody's Life, Property and Religious Beliefs" will be Respected.

Washington, Oct. 11.—President Wilson today gave formal sanction to the plan of the Pan-American Conference to extend recognition to the Carranza government in Mexico. Diplomatic representatives here of several South American governments received instructions to take the same action as the United States. Similar word is expected within a few days from the governments of all the other American republics. The form and time of recognition will be fixed then.

European governments, it is understood, also will follow the lead of the United States and the other American republics. Great Britain and France, it is known, have intimated that this would be their policy.

Correspondence that passed between Eliseo Arredondo, Carranza's representative here, and Secretary Lansing and members of the Pan-American conference relative to the protection of foreigners, amnesty, the treatment of the clergy, and Carranza's pledge to restore constitutional government, became public tonight. It reveals that Secretary Lansing asked particularly of Mr. Arredondo concerning the attitude of the Carranza government toward the clergy. The Arredondo reply, dated October 8th, said:

Guarantees Freedom of Worship.

"Complying with your excellency's request asking me what is the attitude of the constitutional government in regard to the Catholic church in Mexico, I have the honor to say that * * * the laws of reform, which guarantee individual freedom of worship according to every one's conscience, shall be strictly observed.

"Therefore, the constitutionalist government, will respect everybody's life, property and religious beliefs, without other limitation than the preservation of public order and the observance of the institutions in accordance with the laws in force and of the constitution of the republic."

The letter which Mr. Arredondo addressed October 7th to the Pan-American conference and which was the formal basis of their decision, contained a brief review of the Mexican revolution, initiated by General Carranza in February, 1913.

Carranza Justifies Himself.

It sets forth that Carranza, as the legally elected governor of Coahuila when Huerta overthrew Madero, called upon all public officers in the country to repudiate Huerta's usurpation. It points out that none of Madero's cabinet members responded, and says Carranza was constrained to assume the leadership of the movement "because it was his duty to do so, as the governor of the state of Coahuila."

"Mr. Carranza," wrote Arredondo, "is therefore, in the light of the federal constitution of Mexico, the rightful successor of Francisco I. Madero in the exercise of the executive power to the exclusion of any other public officer because he was the only one who complied with his duty according to the fundamental charter of the republic."

Mr. Arredondo deals at length with the military situation and data is given to prove that "at the present time, Mr. Carranza controls 24 states of the 27 which make up the republic and the territories of Tepic, Quintana Root and the Federal District, and has established in each of them a local government."

The memorandum concludes with the various guarantees for the protection of foreigners, amnesty, treatment of the clergy and plans for restoration of constitutional order.

PARCELS BEARING UNNEUTRAL PHRASES BARRED FROM MAILS

Matter Bearing the Words, "Gott Strafe England," Etc., Non-Mailable.

Washington, Oct. 11.—Two forms of mail matter, said to have been extensively used by persons desiring to indicate their sympathies in connection with the European war, were barred from the mails as unneutral today by Postmaster General Burleson. The order follows:

"Postmasters are directed to treat as non-mailable under Section 213 of the Penal Code (Section 481) postal laws and regulations, envelopes, postcards, etc., bearing stickers containing the words, having printed thereon the words 'Gott Strafe England,' or a picture of the German escutcheon with a red blot labeled 'Lusitania' inscribed 'The Blot that won't come off,' as being not only unneutral but calculated to reflect upon certain classes of persons."

MR. A. J. THOMAS DEAD.

Senior Member of Old Firm of Darnell & Thomas, of Raleigh.

(Special Star Telegram.)

Raleigh, N. C., Oct. 11.—A. J. Thomas, senior member of the firm of Darnell & Thomas, died at Mary Elizabeth Hospital today of heart disease, having been in poor health for several weeks. He had been in the music store business here 28 years and was highly esteemed. He is survived by his wife, who was Miss Jessie Darnell, and three children. The funeral will be held Tuesday morning.

SUIT TO RESTRAIN LOAN INVESTMENT

Charges Statutes Forbid Participation in Allies' Loan.

FILED BY MRS. WALSH

Mutual Insurance Company and Its President, J. P. Morgan and Morgan &Co. and Anglo-French Commissioners, Defendants.

Financiers Defendants.

Mutual Life Insurance Company, of New York, contemplates investing $10,000,000 of its trust funds in the Anglo-French loan of $500,000,000, Olga H. S. Walsh, Chicago holder of a $2,000 insurance policy in the Mutual, filed suit for an injunction in the Federal court here today. The insurance company, Chas. A. Peabody, its president; the directors, members of the Anglo-French credit loan commission, J. P. Morgan, individually, and J. P. Morgan & Co., were named as defendants.

The complaint sets forth that among the thousands of policy holders in the Mutual Life Insurance Company are many persons of various nationalities, and that the investment of the trust funds of these policyholders in the Anglo-French loan would tend to produce antagonisms among the policy holders which might lead to disrupting the company and thereby depreciate the value of her interest in the company.

Provisions of the Bill.

The bill asks that the officers of the company be restrained from directly or indirectly investing its trust funds in the loan or from investing its trust funrs or suffering any of its assets to be used for the purpose of aiding the manufacture of munitions of war, aeroplanes, submarines or any naval outfit or appliances to be used by the English or French nations for belligerent purposes. It further asks that J. P. Morgan and J. P. Morgan & Co. be restrained from soliciting or conniving with the officers and directors of the Mutual Life Insurance Company for the purpose of procuring any of its funds to be invested in the $500,000,000 Anglo-French loan. A similar rule of court is petitioned against the members of the Anglo-French loan commission.

The statutes of the state of Illinois and of the state of New York, governing investment of insurance company funds, are incorporated in the bill and the court is informed that the investment in the foreign loan is contrary to the statutes, although it is declared the defendant company has already invested large sums in British consols, Cape of Good Hope stock, and various Australian governmental securities.

Can Be Joint Action.

The petition is presented to the court in the same of the petitioner and all other policy holders in the Mutual Insurance Company of New York who may care to join in the action.

The bill charges that Charles A. Peabody, president of the insurance company, and George F. Baker, one of its directors, met secretly many times "at one of the selected rendezvous of J. P. Morgan and the Anglo-French commission" pledging the support of the company to the loan, the bill alleges.

Mrs. Walsh declares that she and a number of other policyholders have

(Continued On Page Eight.)

RED SOX TAKE THIRD GAME OF SERIES WITH NINTH INNING FINISH

Leonard, Southpaw Pitcher, Holds Phillies Helpless Throughout Contest.

43,200 FANS SEE GAME

Alexander Wild at Times, But His Team Mates Put Up Excellent Defensive.

Speaker's Batting Main Feature of the Game.

Boston, Oct. 11.—The big batter faced the big pitcher at a crucial moment of the world's series between the Philadelphia Nationals and the Boston Americans today—and the big pitcher declined the challenge. It was in the thrilling last half of the ninth inning. More than 40,000 baseball fans had passed the frantic stage and were raving in a delirium of excitement. The score of this critical third game of the series was a tie at the beginning of the last half of the ninth.

Harry Hooper, fleet of foot, was on second base, a dancing dervish, with only one out when Tris Speaker, of Hubbard City, Texas, stepped to the plate, knocked the soil from his spikes, drew a line in the black earth in front of his feet and turned a determined face toward Grover Cleveland Alexander, the fighting hope of the bewildered Phillies, who was in the worst plight of his pitching career.

Big "Alex" looked at Hooper, gave heed to the crowd and saw Speaker's war club gleaming in the late afternoon sun. His mind was made up. The first ball went far awide of the plate. Likewise the second and third. The maddened throng knew what this meant and they howled in derisive delight as on the fourth straight pitch the star centerfielder of the Red Sox trotted to first. This put the issue squarely up to Hoblitzell, lanky guardian of the Sox's inner corner, and Alexander faced him with more confidence. The yelling of the crowd and the strain of striving to stave off defeat seemed momentarily to tell on the pitcher, however, and he had difficulty in finding the plate.

It was three and one on "Hobby" when the first baseman sent a slow bounder toward second. The crowd feared a double play and the lusty howling died as suddenly as if snuffed out by a gigantic mechanical silencer. But Speaker had taken a flying start with Hooper and the two Boston runners were safe on third and second as Niehoff tossed "Hobby" out at his home station.

Lewis' Turn at the Bat.

Now came to bat one "Duffy" Lewis, left fielder extraordinary and of some known ability as a breaker-up of ball games. The situation was ideal for "Duffy". He was in his own home town. The chorus of 42,300 of his home folks was calling upon him with a clamor that carried far from the wide green reaches of Braves' field to carve for himself a niche in the baseball hall of fame. "Duffy" already had made two hits in three trips to the plate, two singeing blows beyond the Phillies' line of inner defense, but this decidedly healthy batting average of .667 did not deter him in the least. Alexander, stout of heart, fighting as he never fought before, called upon all the reserve cunning of his strong right arm, put into his first pitch all the wile he could command and sent the fateful sphere speeding on its way.

The Historic Run.

Lewis met the ball with a smashing crack and it flashed over second base a gray, white streak that no defensive Philadelphian could reach and Hooper raced across the plate with a historic run. It gave the game to the Red Sox by 2 to 1 and the advantage of the series by the same margin of games won and lost—two for the Red Sox and one for the Phillies.

With the "big fellow" defeated in this "breaking" game of the 1915 conflict between the title bearers of the two major leagues, the Boston players and their supporters tonight are willing to wager at almost any odds that the home team will win the series. The Phillies had placed their hope in Alexander, but put upon him in advance the burden of winning three of the games of the series. One failure on his part meant a serious set-back to their chances. But tonight Manager Pat Moran of the visitors is far from admitting failure.

The Phillies are not yet through. They battled hard today and their defensive work was wonderful. It has been said that Alexander was half the team. Today the Boston rooters' band went so far as to blare the old time melody of "Alexander's Ragtime Band," at the champions of the National circuit, but the eight men in gray who surrounded Alexander in the field were out there to do more than form a setting for the big pitcher. They were all over the field and not once did they falter.

Phillies' Excellent Defensive.

"Dode" Paskert, in centerfield, was a team in himself. In the first five innings, of the game he was credited with seven put-outs in a sunfield that had dazzled Speaker into missing a fly headed directly for him, and which transformed a seemingly easy out into a two-base hit for Milton Stock, first man up for the Phillies. But the hard working National Leaguers again showed their weakness at the bat. "Dutch" Leonard let them down with two hits, and Speaker gave them another, bringing their total for the game to three, and their total for the three games of the series to eleven. The de-

(Continued on Page Two)

FOREIGN EXCHANGE RATES DROP AGAIN

The Pound Sterling Sells at Lowest Since Sept. 15.

BANKERS HOLD MEETING

Supplemental Credit of $250,000,000 Said to Have Been Discussed With Sir Edward Holden for Increasing Value of Pound.

New York, Oct. 11.—Foreign exchange rates went down again today, in the face of the successful flotation of the $500,000,000 credit loan to Great Britain and France, to their lowest point since September 15. So disquieting was the situation deemed that a three-hour meeting, attended by Wall Street bankers and Sir Edward Holden, a member of the Anglo-French financial commission, was held at the National City Bank for the reported purpose of devising some new method to bolster the value of the English pound sterling.

Since the arrival of the commission here September 10 the trend of sterling values has been steadily, though slowly, upward. For the past week sterling has been selling at about $4.72. Today it sold down to 4.67 1-4, altogether too far below par to make continued buying of American exports desirable from the British point of view, in the opinion of some of the New York financiers.

Purpose of Meeting.

The meeting today, it was reported, was primarily to reach an understanding as to the best available method of using the $500,000,000 to stabilize exchange and also with a view to arranging a private agreement between New York bankers on one hand and London bankers on the other, for credits which would tend to send the value of sterling up in this market. A supplemental credit of $250,000,000, it is said, was discussed.

It was thought possible that certain large American financial institutions might extend credits to the London banking connections on collateral which could be readily realized on in Great Britain, but for which the market here is restricted. With these credits available here to pay for purchases made by British importers, the pressure of bills would be relieved and rates would be eased.

Sir Edward Holden, as head of the London City and Midland Bank, represents the joint stock banks of Great Britain on the Anglo-French commission. Their resources are enormous. Whether he acted as spokesman for these great financial institutions in today's conference could not be learned.

Prominent Financiers Attend.

Those attending today's meeting, besides Sir Edward, included Benjamin Strong, Jr., governor of the Federal Re-

(Continued on Page Eight).

BLOODSHED FEARED IN CHARLESTON ELECTION

Governor Orders Militia to Prepare for Duty Today.

Notified by Sheriff He was Unable to Cope With Threatening Situation. Order Given Militia is Precautionary Measure.

Columbia, S. C., Oct. 11.—After Sheriff K. Elmore Martin made representations that he was unable to cope with an alleged threatening situation growing out of the mayoralty election in Charleston tomorrow, Governor Manning today ordered the Charleston militia to report at its armory tonight prepared for duty. Adjutant General Moore left at once for Charleston to take charge of the militia.

Sheriff Martin told the Governor that feeling was running high as the result of a bitter election fight and he feared bloodshed.

Other National Guard companies within a short run of Charleston also will be held ready to proceed to Charleston in the event of serious trouble, it was said.

PRECAUTIONARY MEASURE

Charleston Campaign Has Been Bitter —No Trouble So Far.

Charleston, S. C., Oct. 11.—Governor Manning's order today holding the local militia ready for duty and instructions to Sheriff Martin to appoint a large force of deputies was accepted by many persons here only as a precautionary measure to preserve order at the polls in the Democratic city primaries here today. There has been no trouble here, although the campaign has been bitter. Governor Manning telegraphed Sheriff Martin that the militia was to be used only in case of necessity.

ARMY AVIATOR KILLED AS HE FALLS INTO BAY

Body of Lieutenant Taliaferro Not Recovered.

Aeroplane in Which He Fell Fast in Mud Fifty Feet Below Surface of Water in San Diego Bay. Cause is Unknown.

San Diego, Cal., Oct. 11.—Lieut. Walter D. Taliaferro, stationed at the United States army aviation corps school at North Island, fell 1,800 feet into San Diego Bay today and was killed. The cause of the accident could not be ascertained. At nightfall divers from the United States steamship San Diego, working since noon, had failed to bring to the surface the body. The aeroplane in which he fell is fast in the mud 50 feet below the surface and a quarter of a mile from shore. The body is entangled in the machine.

Witnesses say Taliaferro was attempting to loop-the-loop when he lost control of the machine. Strapped fast to his seat he had no chance to free himself in the fall of 1,800 feet.

ONE OF BEST IN SERVICE.

Taliaferro Won Army Duration Contest Last September.

Washington, Oct. 11.—Taliaferro was reputed one of the best aviators in the service. He won the army duration contest at San Diego September 17, last, with a record of nine hours, and 48 minutes in the air. The lieutenant was 35 years old. He was married on April 29, last.

Lieut. Taliaferro rose from the ranks. Enlisting as a private, he served in the coast artillery from September 12, 1901, to September 11, 1904, and from April 9, 1906, to September 2, 1908. Then he was discharged to receive a commission as second lieutenant of infantry.

MUST REDUCE INITIAL COST OF PRODUCTION

In Order to Trade Profitably With South America

Staff Member of Pan-American Union Says Development of Hydro-Electric Power Gives Its Territory Great Advantage.

(Special Star Telegram.)

Washington, D. C., Oct. 11.—Those industrial sections of North and South Carolina which get electricity from the hydro-electric plant of the Southern Power Company at Great Falls, S. C., are among the best prepared sections of the entire country for entering into trade relations with South American countries on a basis of profit.

These sections have developed and are still developing along lines that have been suggested by an expert student of the manufacturing business as essential for business of this country to enter successful competition with Europe in the South American field. This student, who is a member of the staff of the Pan-American Union, states that business men of this country, and especially of the South, must reduce their initial cost of production, must secure more skilled labor and must have proper systems of transportation between ports and inland points.

His discussion is based on the knowledge that the goods most desired in South America are the manufactured goods, whether they be articles of clothing or of machinery. The South American countries, he says, are not provided with fuel necessary to operate the big plants that would be needed, and consequently must secure this class of goods elsewhere.

They have been procuring them from Europe principally. Figures of imported cotton goods to South America show that only about an average of eight per cent. went from the United States. It was pointed out that

PEACE CONGRESS HEARS DR. JAMES A. M'DONALD

Discusses "North America's International Experiment."

Denounces the "War Lords and All That Damning System of Militarism That Has Cursed Europe" 2,000 Years.

San Francisco, Oct. 11.—The International Peace Congress, which held its first meeting in the Greek Theatre at Berkeley yesterday, met today in the Court of the Universe on the Exposition grounds in San Francisco. Dr. James A. Macdonald, editor of the Daily Globe, of Toronto, Canada, who was one of the principal speakers today, discussed "North America's International Experiment." He said:

"As compared with European history North America is but of yesterday and yet North America presents an international experiment without parallel elsewhere in all the world: An international achievement that gives war-stricken Europe of today a chance and a hope for a better tomorrow."

He reviewed the experiments in democracy in Canada, the United States and Mexico, and particularly the remarkable achievement of Canada in coming up from colonial dependence to national self-government, not by revolution, but peaceful evolution—leading the way to national freedom and self-government for Australia and New Zesland and South Africa.

"But," he continued, "the greatest thing North America has done, the thing which puts into visible and concrete form the spirit and purpose of this International Congress, is the joint achievement of these two nations, the United States and Canada. From the Atlantic to the Pacific, and from the Pacific across to the Arctic, there stretches an international boundary line of 4,000 miles, where territory

RED SOX WIN IN CRUCIAL LAST HALF OF 9TH INNING

(Continued from Page One.)

fensive work of the Phillies speaks for itself when in the face of this light hitting they are credited with one victory and have been defeated twice only by the margin of a single run.

Again today one member of the Red Sox made as many hits as the entire opposition, including the unwitting gift by Speaker. It was "Duffy" Lewis today as it was George Foster on Saturday. Tris Speaker made two hits today, one of which was a three-bagger which brought the Sox from behind and put them on even terms with the Phillies. Speaker gave every evidence of coming into his own and it was not to be wondered at that Alexander took no chances with him in the ninth inning rally that brought a sudden end to another game that threatened to go to extra innings. Besides Lewis and Speaker, Harry Hooper was the only other member of the red hosed clan who connected sorely with the jumping curves and sweeping slants fired by the wonder-flinger of the Phillies. But Hooper's hit came in the ninth when it was most needed.

Leonard Steady and Determined.

Old "Dutch" Leonard, of Fresno, Cal., a port-side twirler, brave of heart, steady of nerve and determined of spirit, was the third of the great staff of Red Sox pitchers to take his turn against the invaders of Boston-town today. Leonard had nothing but speed, a fine change of pace, a curve that seemed to jump first one way and then another and had the same effect upon the Philadelphia batsmen, and a control that gave no man an easy speaking acquaintance with the initial bag.

Twice "Dutch" was in a predicament suggestive of his Teutonic title, the two solid swats coming off him in the same inning, but he wiggled away from the doom that seemed impending and was crowned tonight with the laurels of victory. With one out, one run over and runners perched on third and second in the third inning, it was no place for a nervous pitcher when Paskert came to the plate, with "Home Run" Cravath swinging two bats in impatience to be the next man up.

Situation of Tenseness.

But "Dutch" was not to be scored on again. Among the eight enterprising young men struggling behind him for the honor of Boston and the American League, was faithful old "Jack" Barry, already tried and proved in the fire of more than a score of world's series contests. Alexander himself was on third base and Bancroft on second. "Alex" had been running in his deep blue sweater, but when he got to third and was hoping for home, he cast the sweater to the side lines and prepared for the sprint. The Boston infield was drawn close within the diamond and the situation was tense. A base hit would mean three runs for Alexander to work under and there was not a fan in the forty-odd thousand who did not believe that such a margin meant sure victory for the visitors.

There was a wide gap of safe territory between the men of the inner defense and the three fielders on outpost duty when Paskert raised a Texas leaguer that seemed labelled for a safe descent in the very midst of the unguarded, undefended pasture. Hooper in right and Speaker in center started with the crack of the bat, but the home fans groaned as they realized that both were too far away. Then they saw that Barry, too, had turned his back to the ball and was desperately running with it. Would he be able to keep pace with the now rapidly falling sphere or be able to hold it when out of balance? It was just a

HOOPER

Whose Timely Hitting Helped Red Sox to Score Final and Winning Run.

fighting chance, but the fans prayed for it and the Philadelphia base runners respected it.

Barry Brings Relief.

Still on a dead run Barry gave a conclusive leap under the ball and a moment later had whirled and thrown it like a flash to the plate to head off any attempt of Alexander to score after the catch. Barry made the ——s if it were a customary thing, but the stands and the bleachers knew what it meant and they sent up a shout of relief and appreciation.

The danger was not yet past, however, for "Gavvy" Cravath and his war club had to be reckoned with. And "Gavvy" strived mightily to win. He smashed out a line drive to left center that sent Duffy Lewis almost to the fence to handle it. On the home grounds of the Philadelphia club, Cravath's blow would have been an easy home run to the bleachers. Today it was valueless. So much for those well known breaks of the game.

Failure in this third inning to place themselves in a winning position seemed to take the life out of the visitors and they never were dangerous again. Leonard became even better as the game progressed. Neither Cravath nor Luderus, the heavy Philly artist, could connect for a safe blow. In fact, Luderus, second batsman of the National League, was about the easiest person "Dutch" had to deal with. Three times "Ludy" faced the star lefthander and three times he fanned the air.

LEONARD

Red Sox Southpaw Who Held Phillies Helpless Throughout Game.

There was not fluke about the strike outs, no questioning of an umpire's decision. Luderus took three healthy swings every chance he got, but his best effort was a foul into the back stands.

Scene to Be Remembered.

The scene at the park today when play began was one that will live long in the memory of the fortunate thousands who witnessed it. Braves Field, home of the Boston National League club, and lent to the Sox for the present gala occasion, is the biggest and most beautiful baseball place ever constructed. Built like a stadium, its single decked stands rise from the field level to a towering height. The stands all but surround the vast playing field and today they were jammed with a happy throng.

Between the several stands are concrete runways. These offered vantage ground today for hundreds of spectators, wedged in the openings like so many apples in a barrel.

They did not seem to have breathing room. Some could get only a distant glimpse of some part of the game, but not a man deserted until the strenuous game was done. The far fences were sought out by scores of fans who had bought standing room for deep centerfield.

Weather conditions were perfect. The sky was a radiant blue, with a warm sun. It was a day to be remembered for itself alone, but it was capped by a climax for at least 40,000 spectators—the home team won.

Shore May Pitch Today.

Tonight Manager Carrigan is happy. He has several pitchers ready to send against Philadelphia tomorrow and is confident any one of the number will win. The chances are that "Earnie" Shore, who pitched such a splendid game against Alexander last Friday, will be the selection.

Manager Moran, of the Phillies, faces a harder task. His "first string man" defeated, he must choose between Chalmers, Rixey and Mayer. The latter pitched wonderfully last Saturday, but has not had much rest. Chalmers is an unknown quantity, but the chances tonight were that he would be the one to face the Sox tomorrow.

Considered from all angles, today's contest was the best of the series to date.

Team Mates Share Honors.

While the rival pitchers played a prominent part in the battle, they did not shine to the exclusion of their team mates. Fast, clever fielding and hard, timely batting were contributing features of both victory and defeat. The Red Sox, however, won more than the game, for in dethroning Alexander they feel that they removed the greatest obstacle in their path to the world's championship.

Alexander was at his best in the third contest, but was held more than even by Leonard. There are many tonight who predict that Alexander will not be sent to the mound again in the present series as he apparently has lost his terrors so far as the American League representatives are concerned.

Carrigan's men were confident after the defeat of last Friday that they would be able to beat Alexander on his next time out. They proved their contention today in the final inning. In the crisis he first yielded to Speaker and then found his master in Lewis, the hitting sensation of the series.

Leonard Mystified Phillies.

Leonard was a mystery to the Phillies. His wide sweeping curves and cross fire delivery repeatedly fooled the best batters among the National League champions, there being called strikes without the slightest attempt on the part of the batters to connect. When they did hit, the result frequently was a high fly and an out. These sometimes were sensational catches and to his outfield belongs much of the credit for Leonard's three-hit game.

In this respect the defensive work of the Philadelphia outfield was equal in every way to that of the Red Sox, for Paskert, Cravath and Whitted had between them almost 50 per cent of the put-outs.

As the scores stand at the conclusion of the third game the National League representatives have totaled five runs on eleven hits, while the Red Sox have made an equal number of runs on 24 hits. Errors are equally divided, each team having two charged against it.

Lewis Leads in Hitting.

Lewis leads with six safe drives in eleven times at bat. Hooper and Speaker are tied for second place among the Boston batters with three each, while Bancroft is the only Philadelphia player to reach this number. Luderus is next with two hits, these two players having made five of the total of the eleven credited to the Phillies to date.

Stock secured a place among the extra base hitters with his double today, adding his name to those of Luderus, Cravath and Foster in the two-base hit clan. Speaker went into a class by himself with his triple. Hooper, Speaker and Gardner have monopolized the run-making privileges for Boston, while Paskert, Bancroft, Stock, Cravath and Burns have each contributed one run for the Phillies.

The Official Score:

Philadelphia:	A.B.	R.	H.	P.O.	A.	E.
Stock, 3-b	3	0	1	1	0	0
Bancroft, s. s.	3	0	1	4	1	0
Paskert, c. f.	5	0	0	7	0	0
Cravath, r. f.	4	0	0	2	0	0
Luderus, 1-b.	3	0	0	3	1	0
Whitted, l. f.	3	0	0	2	0	0
Niehoff, 2-b	3	0	0	0	2	0
Burns, c	3	1	1	5	2	0
Alexander, p	2	0	0	2	0	0
Totals	28	1	3	26	6	0

Boston:	A.B.	R.	H.	P.O.	A.	E.
Hooper, r. f.	4	1	1	2	0	0
Scott, s. s.	3	0	0	2	1	0
Speaker, c. f.	3	1	2	2	0	0
Hoblitzel, 1-b.	3	0	0	9	0	1
Lewis, l. f.	4	0	3	1	0	0
Gardner, 3-b.	3	0	0	1	6	0
Barry, 2-b.	3	0	0	2	1	0
Carrigan, c.	2	0	0	8	0	0
Leonard, p	3	0	0	0	2	0
Totals	28	2	6	27	10	1

Innings:

Philadelphia.. ... ... .001 000 000—1
Boston.. .. ..000 100 001—2

Summary: Two base hits, Stock. Bases on balls, Alexander two. Three base hit, Speaker. Earned runs, Philadelphia one, Boston two. Sacrifices, Bancroft, Alexander, Stock, Scott. Sacrifice fly, Hoblitzel. Double play, Burns to Bancroft to Luderus. Left on bases, Philadelphia three, Boston four. First base on errors, Philadelphia one. Struck out, by Leonard 6, by Alexander 4. Umpires: At plate, O'Loughlin; on base, Klem; left field, Rigler; right field, Evans. Time: 1:48.

The official figures were given out as follows:

Attendance, 42,300. Paid admissions, $83,191. Players' share, $44,923.14; National Commission's share, $8,319.10; each club's share, $18,974.38.

DEFEAT CAUSES GLOOM

Philadelphia Fans Apparently Take Defeat of Alexander to Heart.

Philadelphia, Oct. 11.—A big black cloud of gloom settled down upon the thousands of fans gathered around score boards in all sections of the city today when Hooper raced home with the run that gave the Boston Americans the third game of the world's series. For a moment the throngs stood as if transfixed and then began to wend their way homeward in silence, apparently taking the defeat of their idol, Alexander, more to heart than the loss of the game. Supporters of the Phillies had held that the big Nebraskan would be almost invincible against the Red Sox and figured that he would win all his games.

Local fans, despite the fact that series stands two games to one in favor of the Boston aggregation, are still optimistic of the final result.

FOUR FROM ONE COLLEGE

Participated in Honors of World's Series Game Yesterday.

Oakland, Cal., Oct. 11.—Four former students of St. Mary's college, this city, shared in the glory of the world's series victory. "Dutch" Leonard, who pitched Boston to victory; Harry Hooper, who scored the winning run, and Duffy Lewis, who drove it on, attended St. Mary's; while Eddie Burns, who scored Philadelphia's only run, is also a product of the local school.

WAKE FOREST DISAPPOINTED BUT NOT YET DISHEARTENED

(Special Star Correspondence.)

Wake Forest, N. C., Oct. 11.—"I am disappointed at the outcome of the Carolina game, but not disheartened—Carolina won by virtue of the fact that they had the better team," said Dr. Smith in an interview today. Captain Moore's absence from the line-up the last half caused the Baptists' defense to crack and allowed Carolina to score almost at will. Had Wake Forest shown the form the last two quarters they did the first, the Carolina score would have been greatly different—Wake Forest would in all probability have crossed their goal line, but the odds were too great against them for them to have won. Carolina had the better trained team, and both their offensive and defensive strength proved too much for the Baptists.

With the exception of injuries to Moore, Parker and Riddick, the rest of the squad came out of the game with nothing more than a few minor injuries. Moore wrenched his elbow and it is doubtful if it will be completely healed by Saturday, but it should heal enough to allow him to play part, if not all, of the A. & M. game. Parker tore the ligaments of his shoulder during the last few minutes of play. His injury is the most serious one of the three, and it can only be hoped that he will be in shape by Saturday. Allan Riddick's nose was broken, but by using a nose guard he will be able to play.

ANGLING EXCEPTIONALLY GOOD.

Blue Fish Caught in Unusually Large Quantities—Topsail Party.

The touch of fall weather the past several days has brought "luck" galore to those who have been angling off the pier at the Seashore Hotel, Wrightsville Beach, and elsewhere up and down the coast. Some excellent catches were made yesterday at Wrightsville, blue fish predominating. Among some of the cards turned in last night were the following: L. G. Bass, 29 blue fish; T. W. Watts, 12 blue fish; Claude Brock, 25 blue fish; Mr. Deal, 35 blue fish; J. B. King, 15 blue fish; D. H. Barnett, 31 blue fish; Capt. W. L. Beery, 25 blue fish and 30-pound drum; C. D. Foard, 20 blue fish; C. Dickinson, 35 blue fish; Messrs. Geo. Hutaff and Mathers, 61 blue fish and 15 drum.

Messrs. A. J. Mitchell, H. R. Aiken, B. H. Bridgers, Irving Corbett, C. T. Stewart, J. R. Hanby and others returned yesterday morning from several days' fine fishing at Topsail Inlet, where they made phenomenal catches of all kinds of fish. They spent several days at the Topsail Fishing Club headquarters and had unusually great sport.

PRESIDENT AND MRS. GALT PREPARING FOR THE MARRIAGE

Welding Trip Being Considered, But Place Has Not Been Revealed.

Washington, Oct. 11.—President Wilson and Mrs. Norman Galt, his fiancee, today began making preliminary arrangements for their wedding. The President and Mrs. Galt are not discussing their detailed plans even with their immediate friends and relatives. A wedding trip is being considered, but the place has not been revealed. Reports that the couple might go to San Diego, or San Francisco exposition apparently were dispelled today, when the President, replying to an invitation from school children in San Diego asking him to visit the Exposition, wrote that he sees no possibility of visiting the Pacific coast at present.

Congratulations from all parts of the world continued to arrive at the White house. One cablegram came from President Estrada Cabrera, of Guatemala. The President is answering personally the messages.

OBSERVE FOUNDERS' DAY

University Alumni at Rocky Mount Plan Big Occasion.

(Special Star Correspondence.)

Rocky Mount, N. C., Oct. 11.—Plans have just been completed by the University of North Carolina alumni residing in Rocky Mount and the adjacent territory for the observance of Founder's Day October 12. On that day it is planned to have Prof. W. S. Bernard, of the Greek Department of the University, to be the guest of the local alumni association while during the evening there will be given a barbecue dinner at the Country Club on Stoney Creek. There will at that time be received the message from the university brought by Prof. Bernard, while other responses will be made by prominent members of the local alumni, including many of the city's representative citizens.

The local alumni of the state institution numbers about 45 members and is one of the largest in this section. This observance has gradually grown into an annual affair.

Pool Exhibition Tonight.

Tonight at Warren's Cigar Store, there will be an exhibition pool contest between Mr. Sherman Scheiken and Mr. William Gus Wright, two local men, who are considered experts in handling the cue. The game tonight will be a one hundred-ball game, and will be the first game of a series which will be played between these two local men, the next game to be played at Baxter's and date to be named later. It is expected that a large crowd will witness the contest tonight.

Chicago, Oct. 11.—Clarence Rowland will be retained as manager o fthe Chicago American League club for the 1915 season, Charles A. Comiskey, owner o fthe team, announced today.

MUST REDUCE INITIAL COST OF PRODUCTION

(Continued from Page One.)

much money otherwise expended in preparing and marketing a bale of raw cotton to Europe could be used for the purpose of manufacturing at home instead.

It was regarded as a reflection that cotton has been allowed to go raw to England be sent back and sold to our neighbors cheaper than we could sell.

To eliminate such a condition, to encourage the manufacture of cotton goods, and the finer the goods the more the returns, is the effort of this student of conditions.

The Great Falls plant is one of the first moves to be made for reducing cost of initial production. It enables the distribution of power, taken up from the stream at proportionately small cost, to hundreds of industries, big and small, to more than 50 towns and throughout an area of importance.

P. R. A.

Norfolk, Va., Oct .11.—Miss Elizabeth Bull, 17 years old, of Norfolk, today won the tennis championship of Virginia when she defeated Miss Dorothy Walke, also of Norfolk, in the final round of the ladies' singles in the fifteenth annual tournament on the courts of the Norfolk Country Club.

Cleanse The Blood Banish Rheumatism

Rheumatism Due to Bad Blood. S. S. S. Your Remedy

Thousands have been made well. People in the poorest health, suffering from Rheumatism, with whom pain was constant. Who believed that their vitality was sapped beyond repair. It was proven to them that the cause of their trouble was the blood; that Uric Acid, the most faithful ally of Rheumatism, had gripped them. The poison in the blood had sapped its strength. The weakened blood had allowed poison and impurities to accumulate, and all energy was gone. They felt "poorly," were listless, pain was ever present, with poor digestion and dyspepsia. They tried S. S. S.,—nature's blood tonic. They gave up drugs. This compound of nature's remedies of roots and herbs did what drugs failed to do. It literally washed the blood free from poison, and with the flow of pure blood came back health, strength, vigor and happiness. Get S. S. S. from your druggist. Insist upon S. S. S. If yours is a long standing case, write for special advice to S. S. S. Co., Atlanta, Ga., but begin taking S. S. S. at once.

ANNOUNCEMENT

Effective Oct. 6th, 1915, THE WHITE MARKET, the Retail part of the Business of J. J. HOPKINS, SON & COMPANY, has been sold to Mr. Geo. Nurnberger, Jr., and will be operated by him under the name of "NURNBERGER'S". We respectfully ask that our former patrons and friends grant the new firm a continuance of their liberal patronage.

This change has been made so that the old firm can devote their time and energies exclusively to their wholesale business

Sans Souci Abattoir

which is growing rapidly, and which will be operated in the near future under Government Inspection entirely, as are the larger packing houses throughout the country. This move should recommend the SANS SOUCI ABATTOIR to the Retail Meat Dealers of the City, as they will have no connection whatever in the future with the Retail Meat Business, confining themselves exclusively to the Wholesaling of Government Inspected Native Meats.

WAKE'S NEW TEMPLE OF JUSTICE DEDICATED

Thousands Participate in "Wake County Day"

Governor Craig, Secretary Daniels and Judge Clark Special Honor Guests Many Addresses Made—Mr. Britton Presides.

Raleigh, N. C., Oct. 11.—As Secretary of the Navy Josephus Daniels began his address this afternoon in connection with the dedication of the Wake county quarter million dollar court house, there was a loud explosion that caused many to spring to their feet with genuine fright. It proved to be an over-charged flashlight held close under an overhanging balcony. There was no damage and the address was not interrupted except for some undertone expressions of "German submarine," "torpedo," and the like.

Secretary Daniels protested against blind folding of precedents by the judiciary.

Chief Justice Walter Clark advocated the building of a new five million dollar State Capitol building as necessary if the State is to keep pace with counties in progress as exemplified in public buildings. The present Capitol building he pronounced thoroughly inadequate.

(Special Star Correspondence.)

Raleigh, N. C., Oct. 11.—This was "Wake County Day", especially for the purpose of formally opening and dedicating the $235,000 court house just completed and used for the first time for court purposes this week.

There were hundreds of people here from every section of the county and there were free movie and other shows, free soda fountain drinks and other special entertainment for the county visitors. Special exercises were in progress in the court room from 10 to 2 o'clock with Editor E. E. Britton, of the News and Observer, as master of ceremonies.

Governor Craig, Secretary of the Navy Josephus Daniels and Chief Justice Walter Clark, of the Supreme court, were special honor guests and offered felicitations of the most commendatory sort on the acquisition of the splendid temple of justice, pronounced the handsomest and most perfectly appointed in this part of the country.

Governor Craig declared that it is especially fitting that the people should make their public buildings imposing structures, suitable for their exalted purpose, that the sight of them may contribute to the mental and moral health, pleasure and power of the people.

B. C. Beckwith, county attorney, for the commissioners, received the court house from the architect, Frank B. Simpson; Herbert E. Norris, solicitor, talked of the intimate relation of the people of the county to the court house; Col. J. W. Hinsdale spoke for the older members of the Wake bar; Robert N. Simms for the entire bar, consisting of 80 lawyers practicing in the county; J. C. L. Harris, oldest member of the bar, paid tribute to those who have died, calling a roll of fifty that included Henry W. Miller, George E. Badger, D. G. Fowle, E. G. Reide, F. H. and C. M. Busbee, Judge James E. Shepherd, Chief Justice Smith and others; sentiment of the people as to the new court house was voiced by M. A. Griffin, who introduced the bill for bonds in the Legislature that made the court house possible, and County Superintendent D. F. Giles spoke for the county school interests, pledging progress in keeping with the splendid court house. The freedom of the city was tendered by Mayor Johnson, and the people of the county had the right of way throughout the city throughout the day.

A. Carter Breaks Jail.

A. Carter, alias Curly Carter, wanted in Pennsylvania on the charge of fraudulently obtaining $10,000 from J. Ellis Hess, has broken jail at Hendersonville where he was being held for the Pennsylvania authorities and the outcome of trial for an offense at Hendersonville, which it was anticipated might delay his delivery to Pennsylvania until punishment had been meted out in the North Carolina case. The news of the escape was telegraphed to Governor Craig this morning by Solicitor Michael Schenck. A requisition from the Governor of Pennsylvania had been honored by Governor Craig and was in waiting at Hendersonville to become effective when the North Carolina authorities are through with Carter.

New Corporations Chartered.

New corporations were chartered today as follows:

The White-Wood Co., Oxford, capital $100,000 authorized and $20,000 subscribed by J. F. White, J. Robert Wood and J. H. Davis for furniture, mercantile and cotton milling business.

The Seagrove Hardware Co., of Seagrove, Davidson county, capital $25,000 authorized and $4,000 subscribed by M. C. Tyson, W. L. Trogdon, T. F. Cole and others.

An amendment for the charter of the Planters' Bank, of Stantonburg, amends its charter for increase of capital from $7,000 to $50,000.

HOW IT'S DONE AT KINSTON

Dummy Policemen at Principal Crossings Guide the Traffic.

(Special Star Correspondence.)

Kinston, N. C., Oct. 11.—The "traffic squad" of the local police force has been put to doing something else. Dummy policemen, something after the fashion of the safety zone signs in the big cities, have been placed at the principal crossings, with the warnings on opposite sides to drive to the right or to the left. The signs, in the center of the street, are accomplishing their purpose admirably. It is a case of driving to the right or left as the case may be or running into another vehicle possibly, or else over the sign. Formerly one or two men were employed in directing traffic at busy times.

A MEDICINE OF MERIT

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.

THEATRICAL

The National Grand Opera Company which comes to the Academy of Music on Saturday, matinee and night, October 23, is making its first tour of the United States and Canada, and while it is unknown to opera lovers of this country, it has a well established reputation in London and the large European cities, where it has been appearing for the last ten seasons. The present European strife has made a tour of this country possible and, judging from the praise bestowed upon its roster of principal artists, chorus and orchestra, by critics of London and the European cities, music lovers may expect grand opera performances of unusual merit, staged in a fitting manner, as the National Opera Company carries special scenery, costumes and effects for all its productions.

The operas to be given at the Academy of Music will be as follows: Virdi's "Rigoletto," at the matinee, and Rossini's "Barber of Seville."

"It Pays to Advertise."

Laughs? "It Pays to Advertise," runs over with them. The curtain has been up barely a minute before the play reaches out over the footlights and pats you genially on the back, and you are aware of a warm, comfortable feeling that makes you sit back contentedly, with complete trust that it is going to keep you jovial and interested the whole evening. It is a sort of kid brother to Cohan's play version of "Get Rich Quick Wallingford." It makes fun of advertising, and it is one of the best "ads" advertising could want. Any advertising man who would like to save himself work had better take his reluctant customer to see this play—it will furnish laughter-coated statistics that ought to land him his contract by the second intermission.

It begins with a good old standby of farces—a wager. A soap millionaire named Martin bets that he has a better son than a rival soap manufacturer—a son who can earn more money in a given time—and then the plot throws the son out into the world, sets him up in the soap business for himself, and eventually brings him back upon his father like a boomerang. The bare skeleton of it hasn't any marked differences from many other skeletons, but its bones have been covered with such human qualities that when you see it acted it is a live story, with so many fresh and original turns that you welcome it open-armed. Its resemblance to old friends is all in its favor.

"It Pays to Advertise" is scheduled for appearance at the Academy of Music Thursday night, October 14th. Prices will be from 50 cents to $1.50. Seats will go on sale this morning at Plummer's.

"St. Elmo" at the Royal.

A rare picturization of Augusta J. Evans' most famous novel, "St. Elmo", enacted by an all-star cast, in six thrilling and interesting reels, is today's great offering at the Royal, and promises to be one dramatic offering that will be witnessed by packed houses all day. In book form St. Elmo has been read by generation after generation and ranks among our foremost literary gems. It ever holds a place of tender esteem in the minds of thousands of Americans of every class.

As a stage play St. Elmo has been presented in every city, town and village in the country and abroad. But just compare the stage production, in three or four ordinary stage scenes, with an elaborate six-reel picturization, with a cast of notable Broadway stars, and filmed in 194 brilliant scenes, and you may imagine something of the difference.

The story of St. Elmo is known to almost everyone—it needs no repetition here. Enough to say it is one of the world's masterpieces of romance, love, intrigue and crime, and throughout the whole story runs the personality of St.

Scene from "St. Elmo," Massive Fox Feature at the Royal Today.

Elmo himself, bringing out a beautiful lesson that cannot fail to reach everyone, even more forcibly than from reading the great book.

Those Ring W. Larder baseball comedies (you know me, Al.) which created such a stir when published in the Saturday Evening Post, are the biggest hits in the comedy line that has ever been seen here, and one will be presented each day this week.

Bijou Contest Winners.

Today the Bijou is due to be packed from early till late, for it presents as its headliner the great three-reel photoplay production in which the Bijou contest winners, and the others, took a part while they were in Universal City. "The Tenor" is the title, and featured in this great dramatic spectacle with the girls are Hobart Henley, Gretchen Lederer and Carmen Phillips. The girls are to be seen in many gorgeous scenes in the photoplay, and, of course, everyone wants to see them in the real movies.

In this great photoplay handsome Hobart Henley plays a remarkable dual role—the first he has ever assayed—that of two brothers, and he plays it in a masterly way. As a singer imbued with an ambition to shine as an operatic star and whose ambition is gratified, blessed with a plenty of this world's goods and a beautiful and devoted wife, but who becomes a slave to the drug habit, Henley's presentation of the role is most striking and effective. The part of Antonio, the singer, is played with a dash that makes it most attractive, and as Paolo, the physician, Henley's acting, intensely dramatic at times, is convincing to the fullest degree.

King Baggot is another bright star on today's bill, starring in "The Home Coming," a big comedy-drama offering that of course is up to the usual Baggot standard. Then there will be another great comedy also, making up the usual "biggest" jitney offering in the city.

Feature—Grand Today.

Be sure and visit the Grand today. The greatest bargain in motion pictures is on. It's a great big Mutual masterpiece in four parts and one of the best features you ever saw and the admission is only five cents. Bessie Barriscale, who built up among screen enthusiasts a following greater in numbers even than the one she enlisted under her banner while on the legitimate stage, is the star of "The Reward," the latest Mutual masterpicture to be produced under the direction of Thomas H. Ince. Miss Barriscale is ably supported by the English actor, Arthur Maude, who has already appeared in a number of Ince productions. "The Reward," which is the joint work of the talented screen author, C. Gardner Sullivan and of Mr.

MARGARET THOMPSON IN "THE REWARD"
FOUR PART MUTUAL MASTERPICTURE
PRODUCED BY NEW YORK MOTION PICTURE CORPORATION

At the Grand, Today.

Ince himself, is released in four parts and pictures a human interest story of the stage with skill and cumulative dramatic effect. The picture gives an intimate view of life behind the scenes that is bound to be of great interest to those unacquainted with the reality. To those who know life as it is back of the stage these pictures are also sure to appeal forcibly, for they mirror the truth faithfully and well. Jane Wallace (Bessie Barriscale) is the leading character in the story, and around her determination to remain straight the whole play revolves. Among her associates in the chorus she is known as the "Iceberg" because of her indifference to men. They all like her nevertheless, and as she watches the others hurry away from the stage door with a crowd of men she realizes that being good means being lonesome. She goes home, and we see her washing her own clothes in her cubbyhole of a room and mentally applaud her.

The comedy portion of the programme will be presented by the Mina company in one reel entitled "How Wife Went Out." It's a scream from start to finish.

Tomorrow a four-reel "Broadway Favorites" by the Kalem company will be the feature attraction entitled "The Call of the Dance," featuring Yancsi Dolly, New York's idol.

Victoria Plays to Capacity.

Last night the Victoria theatre played to the largest house of the entire season according to statements made by the house management. "St. Elmo" was the attraction and greatly pleased the large audience. The production was most elaborate. The scenery was all specially built and painted for this great play and made a most favorable impression.

Wednesday night ladies will be admitted free when accompanied by a person holding a paid 30 cent ticket if purchased before 6 p. m. Wednesday at the Victoria theatre, corner Second and Market streets.

They are Always Side by Side

The telephone and the directory are always side by side in office or home. Bell telephone subscribers are almost without exception able to buy the goods advertised in the directory.

Your advertisement in the Bell directory gives it a place in the home that no other medium can equal or supplant. It is consulted thousands of times every day. It is a household and office necessity, remaining in constant use.

The rates are reasonable; the results are surprising; the space is limited.

Ask for rates.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

OVERMAN LEASES A HOME IN WASHINGTON

Goes to National Capital This Week to Begin Work.

With His Sub-Committee He Will Begin Hearings on Revision of Laws Relative to Judiciary —Funeral of W. C. Carr

(Special Star Telegram.)

Washington, D. C., Oct. 11.—Senator Lee S. Overman will reach Washington some time this week and will begin hearings on the resolution which authorizes the codification and revision of the laws relative to the judiciary. The Senate appointed a sub-committee, of which Senator Overman is chairman, to hold hearings and report to Congress when it meets December 6. Senators Chilton, Walsh and Brandegee are also members of the committee.

Senator and Mrs. Overman have decided to lease the home of Major Ed McCauley, at 1719 Rhode Island avenue, now. The residence adjoins the home of Chief Justice White, of the Supreme Court, and is said to be one of the best furnished residences in the exclusive Northwest section. Senator and Mrs. Overman will take possession November 1.

Funeral of W. C. Carr.

The remains of William Kearney Carr were laid to rest at Mt. Olive cemetery today. Brief funeral services were held at St. Matthew's Catholic church, where many of the most distinguished men in the National Capital paid the last tribute to the distinguished Tar Heel. Mrs. E. W. Twitty, of Warrenton, who taught Carr the first lesson he ever learned at school, came here for the funeral. Mrs. Twitty is 80 years old. Peter Wilson, also of Warrenton, was one of the pallbearers. Elias Carr of Raleigh, brother of the dead man, and Miss Marian Alston, of Warrenton, were among the out-of-town folks who attended the funeral.

Senator Overman has secured the appointment of P. G. Keiser, of Hickory, as a member of Revenue Agent Chapman's force. Keiser will be assigned to duty at Greensboro, and in the future will be a member of the raiding force.

Prof. Southerland, of Georgetown.

J. J. Southerland, formerly of Wilmington, now senior attorney in the office of the solicitor for the Postoffice Department, has been made a member of the faculty of Georgetown University.

A marriage license was issued today to Hodge L. Knox and Miss Isabell Henderson, both of Salisbury.

Paul R. Dozier has been appointed postmaster at Spout Springs.

Rural delivery service on route No. 1 from Craven, Rowan county, has been transferred to Salisbury and designated as Route No. 9. P. R. A.

JUSTICE LAMAR CONTINUES ILL

Was Unable to Attend Opening Session of Supreme Court Yesterday.

Washington, Oct. 11.—Justice Lamar had not sufficiently recovered from the illness which overtook him several weeks ago at White Sulphur Springs, W. Va., to attend today the opening of Supreme Court or join the other justices in paying their respects to President Wilson. The pustice has been suffering from high blood pressure, which centralized in the arteries of one arm, causing painful inflammation.

He has responded to treatment which was so depleting, however, that he is still confined to his bed. He expects to resume his official duties within a few weeks.

The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for Influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James Bell of New York City, says he is convinced that too much medication is both unnecessary and injurious.

When called to a case of la grippe, the patient is usually seen when the fever is present, as the chill which occasionally ushers in the disease, has generally passed away. Dr. Bell then orders that the bowels be opened freely with salts, "Actoids" or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one Anti-Kamnia Tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also unexcelled for headaches, neuralgia and all pains.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily and mailed to subscribers outside the county at $6 per year, $3 for six months, $1.50 for three months; or served by carrier in the city and suburbs at 60c. per month, or, when paid in advance, $7.00 per year, $3.50 for six months, $1.75 for three months.

THE SUNDAY STAR by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate and like matter will be charged at the rate of 10 cents per line, to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to the readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51. Editorial and Local rooms, No. 61.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable and all communications should be addressed to

THE WILMINGTON STAR CO.

TUESDAY, OCTOBER 12, 1915.

TOP O' THE MORNING

If we do not endeavor to do that which is right in every particular circumstance, though trifling, we shall be in great danger of letting the same negligence take place in matters more essential.

—MARGARET WOODS.

Winsome widow wins Wilson.

What has become of the genuine old-fashioned Norton yam?

Some people say too much of nothing. Others say too little of something worth saying.

Europe ought to intervene with itself. We are getting tired of the horrible state of affairs on the continent.

A Wilmington woman confesses that she never had any intuition or she might have known that married life is no pipe dream.

Boston may as well take care of herself in the world's series. We have more distant relatives in Philadelphia than we have in Boston.

Bulgaria is the 13th nation to enter the war, but it is not liable to give her bad luck till the 14th nation comes out on the side of the Allies.

According to her new directory, Greenville, S. C., has a population of 43,000. Like as not, however, Spartanburg will see the directory man last.

Says the Jacksonville Times-Union: "And now Cummins again has his eye on the presidential chair." President Wilson had better be careful not to sit down on Cummins' eye when he resumes his seat in that presidential chair.

Some presume that the Italians have quietly chased the Austrians out of as much territory as Italy wants, but if that is not the case the censors are to blame for keeping us from finding out the war conditions along the Austro-Italian front.

In view of the fact that everybody wants an automobile, the only thing people remember about a horse is that "You can lead a horse to water but you can't make him drink." In addition to that, you can lead a man to drink, but you can't make him take water.

The girls have learned to can, to make preserves and jellies and jams and to put up chow chow, catsup, pickles and good things for consumption in the winter. How'd you like to live life over again and get into the good graces of a girl who is a domestic scientist?

A Bridgeport pastor announces. "I hope the young men who have absented themselves from church will attend because of the girl ushers." Of course, that is an attractive proposition, but when a fellow gets him one of the ushers he might decide that its no use to keep on going to church.

Some people insisted that we should intervene in Mexico, but when the war in Europe started they observed a greater opportunity for us to mess in the affairs of eight or ten nations at one time. After the war is over, there will be long newspaper articles telling about how close we came to putting our foot in it.

Some women have a knack of taking a few dollars to start with and gradually working up to the point of handling hundreds of thousands of dollars. A New York woman started with $39 an dwas soon rolling in wealth. She lived in great style and wore diamonds and feasted and dressed to beat the band. She recently retired from business but her debts aggregate more than a million dollars. She neglected to account for money she took in to invest for other people. For a while they called her a woman financier, but now they call her a female embezzler.

ATLANTA'S NAVIGATION DREAM.

For some time Atlanta has dreamed of the possibility of making the Chattahoochee river navigable from the Georgia capital to the Gulf of Mexico. The Chattahoochee flows by the suburbs of Atlanta and it is a good sized stream even that high up. Atlanta has long had ambitions of a sea connection for freight traffic and the desire is now stronger than ever, since the chamber of commerce is working intently upon the scheme.

That work resulted in getting an appropriation for a survey of the river in order to ascertain if it were feasible and practicable to provide a navigable channel as far north as Atlanta. That survey was recently completed under supervision of Capt. Earl I. Brown, U. S. Engineer Corps, formerly in charge of river and harbor improvements in the Wilmington district. Captain Brown tells the Atlantans that there is no doubt about the possibility of making the river navigable, but he declined to say anything as to the estimated cost or as to the practicability of spending the government's money on a waterway along which population is small and the traffic may be negligible to start with.

Atlanta is hopeful, however, and the chamber of commerce has appointed a standing committee to stay on the Chattahoochee navigation job until definite results are attained. Streams of far less size and importance than the Georgia river have been made navigable waterways, and, of course, the Chattahoochee can be made navigable by locks and dams. However, what will it cost and what are the possibilities for water freights? That is the main question, and upon that depends the Chattahoochee's chances.

The Chattahoochie is navigable from the Gulf to Columbus, Ga., but for 200 miles above Columbus to Atlanta the river is obstructed by many rocky shoals. Shallow channels and shoals, however, offer no obstruction to modern engineering. We have seen the engineers by means of a dam convert a one-foot channel to one of 30 feet over top of just such rock shoals as can be found in the Chattahoochie.

The Chattahoochie may be turned down now, but the time is coming when its improvement will become a necessity. That may be a long time off, for we don't know how populous Georgia is along the upper Chattahoochie. By the way, Atlanta is situated on the "divide" which separates the waters which flow into the Atlantic from those which flow into the Gulf of Mexico. Some of the water which falls on Atlanta takes the two different routes.

MONSTER COTTON SHIPMENT

Texas City, the hustling new port near Galveston, recently made a good bid for notoriety. She got into the limelight by clearing the British steamship Monarch, the largest vessel that ever entered that port. The size of the ship may be judged when it is stated that the Monarch carried a full cargo of 25,000 bales of cotton for Liverpool. Her cargo was valued at $1,500,000, on which the insurance and freight charges mounted to a princely sum.

The Texas ports have been doing a tremendous commerce this fall. They export both cotton and wheat. During September Galveston handled 48 full cargoes for Europe—24 of cotton and 24 of wheat. Galveston's cotton shipments for the month were 224,573 bales and the wheat shipments totalled 4,601,550 bushels.

That is a big lot of wheat but it is less than Galveston shipped in September last year when the whole of Europe was in feverish haste to get bread stuffs on account of the war. The falling off in wheat shipments this season is attributed to the fact that heavy rains in the West and Southwest retarded the movement of grain. As a conquence the grain movement is late this year.

However, Galveston has made up for it with her big cotton business compared with September last year, when the shipment amounted to only 69,670 bales. Cotton shipments are more than three times as great as they were last September.

SPEAKERS FOR THE CORN SHOW.

It is the purpose of the Corn Show management to secure distinguished men for addresses during Wilmington's gala week, November 16, 17, 18 and 19. We might get some of the big guns to come here and deliver addresses that would be worth a great deal to this tidal county. For instance, there is Dr. David F. Houston, Secretary of Agriculture, in charge of the United States Department of Agriculture, and Dr. Bradford Knapp, head of the bureau of farm demonstration work in the department. Dr. Knapp, as successor to his eminent father, the late Dr. Seaman Knapp, is directly in charge of tae boys' corn club work, originated by his father.

Secretary Houston and Dr. Knapp spent the latter part of last week at Florence and in the vicinity, inspecting the government's agricultural department experiment work in that section. We have no doubt they would gladly accept an invitation to come to such a remarkable agricultural and horticultural region as this around Wilmington.

Then there is our own distinguished State Commissioner of Agriculture, Major W. A. Graham, who ought to be invited, along with some of the dairy and creamery experts and livestock specialists connected with North Carolina's live agricultural department, now experimenting with a creamery. Commissioner Graham ought to come anyhow to show us that he is on the job. He is a good talker and knows what to talk about. He knows North Carolina's agricultural potentiality and only recently seized the opportunity to assert North Carolina's prestige for producing 40 pounds more cotton per acre on the average than any other cotton state.

It does a section good to have men like these as visitors on just such an occasion as the corn and horticultural show to be held in Wilmington next month.

This is a hint to the show management.

FARMERS WARNED OF MENACE

Mr. H. E. C. Bryant, Washington correspondent of the Raleigh News and Observer, writes to that paper that the Department of Agriculture has sounded a warning to the farmers and cattle owners of the South. The department accurately calculates that every year the South is losing $50,000,000 or $500,000,000 in ten years—a sum that alone would pay off that huge loan to the Allies, about which there has been so much miration and noise. The cattle ticket is causing that enormous drain on the South and but for the pest the South with only one of its opportunities could pay off the debt of the Allies in this country in ten years.

The census enumeration of cattle in the South shows that they would be worth $50,000,000 a year more than they are if their blood were not being sucked away by the cattle tick. The ticks sap the strength and vigor of cattle, cause undersize, loss of milk and butter, detrioration of hides, and otherwsie depreciate the South's cattle industry. In fact, we let the cattle tick stand in the way of a great cattle raising, dairying and cheese industry in North Carolina and other Southern States. Here is the view as it is secured from the Department of Agriculture:

"The tick is regarded as a menace as much to be avoided as the hoof-and-mouth disease, which has created such havoc and caused the slaughter of so much cattle in twenty States outside the South. Although the South has escaped that dread disease by the promptness of the government in slaughtering the cattle infected, and in quarantining sections where it has appeared, other methods must be adopted to get rid of the tick. Slaughtering the cattle will not be of use. The government recommends that the cattle be dipped in an arsenical bath, and counsels the organization of counties and communities to provide this remedy. The cost per head will be annually from 20 to 50 cents but the saving will be from $5 to $10 a head on beef cattle and from $20 to $50 per head on dairy cattle.

"It is said that where the ticks are thick they eat 200 pounds of blood a year from a 1,000 pound steer. A few on a cow would reduce the milk yield one and one-half quarts per day while lots of them would cut the yield down over three quarts daily. The blood lost, it is urged, is worth so much a pound in beef and so much a quart in milk."

Are eastern North Carolina counties in a position to heed this warning? Is it worth while for them to accept the government's aid? Some are, and we hope they will get busy. The whole of Georgia has been aroused on this subject and one after another of the counties of that progressive State is being freed of the little pest that has caused us a loss of hundreds of millions of dollars and is deterring homeseekers from coming here to share the drain.

THE SHIP CANAL FROM OCEAN TO RIVER.

To the Editor of The Star:

My friend Terrence Mulvaney says that when in a scrap, convince your man by hitting him "first in the nose and frequent." and by this token I shall—theoretically—offer another article, in close sequence, on the subject of a Ship Canal from Ocean to River through Masonboro Inlet and through Hewlett's creek overland to the mouth of Brunswick river.

The sea level canal from Buzzards Bay to Cape Cod Bay, Massachusetts, recently completed by the Cape Cod Canal Co., is 12 miles long and has a depth of 25 feet. By this cut-off 65 miles is saved in the route between New York and Boston, besides avoiding the dangers of Cape Cod. It is surmised that the cost of this canal was greater than would be one over Federal Ponit peninsula, even at the same relative distance, for the reason that the southern coast of Massachusetts, granite boulders are in evidence which would necessitate blasting. The Geological strata through which our project would follow may embody a deposit of limestone or coquina which could be handled less expensively, it is said. There is no obstruction offered against a cut in tangent the entire length of our canal.

By way of digression, it may be interesting to know that steamships taking cargo in Galveston, Texas, often follow the Gulf Stream up the coast to Norfolk, where they run in to replenish their coal supply. The Gulf Stream—the impact of warm water, flowing from the Gulf of Mexico along our coast to a point off the coast of New York, where it takes a northeasterly course for the northern coast of Scotland, is the trade route for ocean commerce—both coast-wise and foreign—and a vessel following this route is distant off shore at the following points, to-wit: Jacksonville, Fla., 170 miles; Savannah, 195 miles; Charleston 175 miles; Wilmington (about) 50 miles; Cape Hatteras, 14 miles, and Norfolk 58 miles. The dangers of Cape Hatteras are so great that marine risks on ships sailing in that proximity are higher than any other. Supposing that a ship canal was opened from the ocean to Wilmington harbor, and a coaling station established on Eagles' Island, would not many of these steamers avail themselves of the advantages offered, and thereby give Cape Hatteras a wider berth on leaving this port?

Wherever there is deep water, in an acsessible port, there ships will go. Wherever ships can find port, railroads will build termini. Assuming that there is no technical objection to the opening of a ship canal across the point designated, its consummation would mean more to Wilmington, to the State and to the country than any superficial estimate can convey. With a coal chute at the extreme southern end of Eagles' Island for the benefit of naval vessels, warships could run in and coal with utmost facility, and little loss of time.

As to coal, it can be confidently asserted that the relative difference in distance to Wilmington, as compared with Norfolk, offers no serious handicap, as the A. C. L. and S. A. L. with their connections can adjust the differentials to the coal fields of Virginia and Tennessee.

In the fewest possible words, the benefits that will accrue to Wilmington, should this project be carried out, are conveyed in six words, to-wit: Safety, Time, Distance, Money, Development and Trade.

It is not necessary to say that this would be a project constructed, owned and controlled by the government of the United States. It would not conflict with the Intra-Coastal Waterway now contemplated.

Faithfully yours,
GEORGE P. COTCHETT,
October 11, 1915.

PLAYGROUNDS FOR CHILDREN

The Star is requested to publish the following:

St. Mary's Pro-Cathedral, Wilmington, N. C.

Mr. James Hall, C. P. S.

Dear Sir: I invite your earnest consideration of the following facts in reference to the action of the council in repealing the ordinance governing roller skating.

1. It is the duty of the city as a corporation to provide parks and playgrounds for the children. The council is the legal body representing the corporation. If council fails to meet the obligations of the corporation it represents, has it the right to penalize the individual citizen by taking away his rights?

The city will not allow merchants to obstruct the sidewalks in displaying their wares; but the council will tax these same merchants to allow sidewalks to be obstructed for roller-skating. Where is the justice?

2. The children are no respectors of privileges; they are not content to use sidewalks, but find their greatest pleasure in using private property, as is the case on our property. Though the council gave them the sidewalks they seem to prefer the concrete driveway on our property. Hence we are obliged to blockade the approaches while skating.

3. When this same trouble arose some few years ago the children were not content with the sidewalks or the concrete driveway of private property, but some of them sought other attractions and invaded the church proper and had their amusement by skating in the aisles of the church. Is this the manner in which children should be amused? Would it not be far better to teach children to respect their elders and look upon every church (no matter what the sect may be) as the House of God? If children are not taught to respect God and His house when will they ever learn these duties? The child that is brought up without respect for God or man cannot make a good citizen. Let council be governed by sense and not maudling sentimentality.

Let children be taught that law is to be respected. If this respect for law is not inculcated in youth when will it be imbibed? Remember the old adage "As the twig is bent the tree is inclined." But if the council is still determined to give over the sidewalks to destruction and force the property to make the repairs, then try and have churches protected. For familiarity of the kind under No. 3 will breed contempt; and contempt of youth for churches and sacred places will make anarchists.

I would merely add that the civic league invites us to beautify our properties. We have just gone to considerable expense to secure a lawn for our property. A casual inspection will show that the labor of months has been destroyed by this act of council.

Very respectfully,
C. DENNEN.

Since writing the above my attention has been called to the donation of a prominent citizen to a previous council of a tract of land extending from Front to Sixth street, facing Greenfield Pond. This is to be used as a park in consideration for the extension of Fourth street South. If such is the case it would require only a moderate expenditure of money to give all the pleasure desired. To my mind that tract is the most beautiful naturally near Wilmington. If the city has not the money then let the backers of the kiddies come across with their donations. I will give my share. C. D.

CURRENT COMMENT.

As a necessity of the war, Russia has built a double-track railway to the sea! The German railways count for many men. Now that we are proposing to prepare for war what of the railways that have been denounced and taxed as the enemies of the people?—Jacksonville Times-Union.

The Wilmington Star meditatees editorially upon the matter of "Hugging a Delusion." But when we began to read we found out it was not that kind of hugging that it was talking about, for that is never a delusion, at least so we are told.—Raleigh News and Observer.

Two pairs of misfits were seen on the streets of Charlotte Saturday. One was a man wearing an overcoat and a straw hat, and the other was a wagon drawn up at the curb with a load of fine watermelons—big, round, green fellows, the sort likely to attract a rush on a hot August day. The owner of the load was not even asked the price. A load of pumpkins would have gone better.—Charlotte Observer.

Gen. Julian S. Carr left yesterday for the Panama-Pacific Exposition, Honolulu, and Japan. His birthday is on Tuesday of this week, and there will be many good wishes following him on his trip across the continent and on to the Orient. North Carolina wishes for him many more years, for he is a son ever on guard for his State.—Raleigh News and Observer.

Mr. Herbert McClammy has made up his mind to enter the race for Congress in the Sixth district, after having had the matter under consideration since last spring. That makes two for New Hanover, and it is to be said that both are good men. The Lumberton Robesonian told us the placid bosom of the political waters of the Sixth congressional was due to be disturbed shortly by a ripple, and from now on we shall expect the commotion to be more or less pronounced.—Charlotte Observer.

"The future of this bureau is now an assured success, if you will give it your hearty support by joining in its councils and help shape its policies and activities," says the announcement by the temporary organization of the North Carolina State Publicity bureau of the first annual meeting, which will be found in this morning's News. A flock of hearty "hurrahs" is in order at this point of the proceedings. Well begun is half done. The tentative scheme and scope of the work, advanced by two members of the temporary organization, may or may not follow that which is finally decided upon; but it is impressive in a large way, as to the possibilities. There is no end of the work that would be entailed; and yet it is apparent it could be shaped into a systematic plan which would quickly begin to produce results and would gather strength and value as the months passed. It is going to be largely a question of personnel; the success of the movement is going to be measured by the quality of the men who are attracted to its service. The opportunity is unbounded.—Greensboro News.

Lexington, Ky., Oct. 11.—After losing the first heat to Axtien, Peter Scott won the Walnut Hall $3,000 and cup, the principal event of the grand circuit race programme today, taking the last three heats in easy style. On behalf of the association and the Walnut Hall stock farm, George A. Bain presented the $500 cup trophy to Henry Oliver, of Pittsburgh, the owner.

DECISION RENDERED IN BIG ADMIRALTY CASES

By Judge H. G. Connor, of the United States Court.

Verdict Given in Favor of Merchants & Miners' Transportation Co. Against Steamer Alcazar —No Appeal Likely.

Judge H. G. Connor yesterday handed down and forwarded to the clerk of the United States Circuit and District Courts in this city an opinion in the noted admiralty cases in which the British steamer Alcazar was sued in libel proceedings for salvage claims in favor of the Merchants & Miners' Transportation Co., and the owner and master of the tug Columbia, both libellants being of Savannah, Ga.

It will be recalled that the Alcazar, while bound from Haiti to Chester, Pa., with a valuable cargo of logwood, was abandoned off the North Carolina coast two days before Christmas in 1912, the captain and crew having been brought into Wilmington by the tug Columbia and the steamer itself later having been picked up and towed into Cape Lookout Bight by the M. & M. steamers Dorchester and Merrimac. The M. & M. Transportation Company sued for half the value of the vessel and cargo, which was estimated at $160,000 and the tug Columbia sued for $10,000 for the assistance rendered in taking off the captain and crew.

Judge Connor in a lengthy opinion, allows the Merchants and Miners' Transportation Company $12,097.89 and the tug Columbia $2,033.63, directing that each party pay costs of his own depositions and witnesses, the defendant claimant or owners of the Alcazar to pay the remainder of the costs. The case has been heard at several hearings before Judge Connor and a large number of depositions have been taken, while many witnesses have been brought here from a distance, the result being that the costs in the action amount up to something over $10,000. The opinion, therefore, is a victory for neither side in the litigation. It is not known as yet whether an appeal will be taken to the Circuit Court in Richmond, but it is said to be likely there will be no appeal.

It will be recalled that there were two libels of the steamer Alcazar—one by the M. & M. T. Co., another by Rufus S. Salas and Thomas B. Starratt, owner and master, respectively of the tug Columbia, while several of the members of the crew of the tug and M. & M. steamers were intervening libellants.

Daniel H. Haynes, Esq., of Baltimore, and J. O. Carr, Esq., of Wilmington, represented the M. & M. T. Co.; Messrs. Lawton & Cunningham, of Savannah, for the master and owner of the tug Columbia, and Messrs. Harrington, Bigham & Englar, of New York, and Charles L. Abernethy, of Beaufort, for the Inter-American Steamship Co., Ltd., of Canada, owners of the steamer Alcazar.

The libels were filed by the M. & M. T. Co., as owners of the steamers Dorchester and Merrimac, which picked up the steamer after she had been abandoned and towed her into Cape Lookout Bight, and by the owner and captain of the tug Columbia. These were consolidated and heard together. The Alcazar left Port-au-Paix, Haiti, with cargo of log wood and dye stuffs, December 18, 1912, for Chester, Pa., and went on a shoal on the North Carolina coast, near Beaufort, on December 23, 1912. The tug Columbia was bound from Savannah with a tow to Norfolk and was hailed by the steamer in distress and asked to stand by, which she did until another storm came up and the tug was obliged to take the captain and crew on board and bring them to Wilmington, dropping her tow there and abandoning the steamer. Subsequently the Dorchester and Merrimac, of the M. & M. T. Co., were passing and took the derelict in tow and carried her to a safe anchorage with only the loss of her deck load. For the service the Merrimac and Dorchester owners asked for half the value of the ship and cargo or about $80,000 and the tug Columbia asked for about $10,000. The award by Judge Connor in his opinion yesterday was very much smaller than these amounts.

NEW OFFICERS ARE ELECTED

Boys' Brigade Starts Work for the Season—Colonel Taylor Tells of Northern Trip.

An enthusiastic meeting of the members of the Boys' Brigade was held last evening, the occasion being the annual business meeting and the election of officers. Rev. Dr. J. M. Wells, who will teach the Monday night Bible class, outlined the course of study for the year, and Col. Walker Taylor, founder and commander of the Brigade, gave an interesting account of his recent trip North.

Mr. J. Henry Gerdes, of Company A, was elected president and Mr. Simon P. Branch, of Company B, was elected vice president. Mr. James A. Price was re-elected as treasurer. Mr. H. K. King was appointed by the commander last spring as secretary and general manager.

An interesting feature of the meeting was the promotion of 12 members of Company C, the junior organization of the Brigade, to Company B. The young men are: Messrs. Charles Bell, David Ellis, Claud Gore, Mc Griffith, Schuyster Griffith, Robert Jones, Alfred Jewell, Wilbur King, Harry McGowan, William Sanders, Ed Snakenburg and Edgar Warren.

Three new members were received last night, these being Mr. Louis Hanson, Jr., as a member of Company A and Messrs. N. E. Davis and Rudolph Sanders as members of Company B.

Colonel Taylor's account of his attendance at the second game of the World Series in Philadelphia was of especial interest to the young men. He witnessed the game and saw the President when he tossed the ball across the diamond. He also told the boys about his trip to New York and incidentally gave them some insight into the manner in which the government conducts its business.

HOT WEATHER DRINK
Horsford's Acid Phosphate
A teaspoonful added to a glass of cold tea or water, with sugar, is delightfully refreshing.

BELIEVES IN THE CORN SHOW

Editor of Carolina Fruit and Truckers' Journal Points Out Some of Splendid Results Achieved.

Mr. Z. W. Whitehead, editor of the Carolina Fruit and Truckers' Journal, who has for many years been interested in the development of the agricultural, commercial and industrial interests of this section, in an interesting statement to The Star points out some of the splendid results that have been achieved from the annual fairs in this county and declares that this institution deserves will at the hands of the business men of Wilmington and richly merits the most cordial co-operation and support of the farmers of New Hanover county and elsewhere.

"Permit me, first of all, to commend most cordially your editorial in this morning's Star," said Mr. Whitehead yesterday in discussing the good results of the annual fair.

"November 16, 17, 18 and 19 have been selected as the dates for the New Hanover Corn Show and Industrial Fair this year," he continued, "and let one and all make a long pull, a strong pull and pull together for success. This institution has served the commercial and industrial interests of Wilmington and the farmers of New Hanover and adjoining counties a good purpose the past two years. It, therefore, deserves well at the hands of the business men of Wilmington and richly merits the heartiest and most cordial co-operation and support of the farmers in New Hanover and elsewhere. Several hundred dollars have been paid out in premiums each year, and the stimulus of this money has furnished the growers to enter the race and compete for supremacy and excellence is worth ten times over to both the city and county as an investment.

"As one result of this annual fair the contest between the boys' corn clubs and other farmers has been of such a character as to bring New Hanover well to the front as one of the great corn producing counties of the State. In point of volume to the acre, New Hanover now stands close to the head of the list and nothing has contributed half so much to this situation as the annual fair and competition between the growers. Besides that, it brings the people from the county in closer touch with the townspeople, and the same is true of the people in the surrounding counties. Wilmington has long been the commercial metropolis, not only for the whole State, but the one market and trading point for all the adjoining counties tributary to New Hanover.

"Nowhere within the confines of North Carolina have the farmers made more substantial progress during the past ten or 15 years than those in New Hanover lands, at one time thought to be practicalcally worthless, are ideal for trucking and other farming purposes, and proof of this fact is to be found in the large number of farms that now dot every part of the county. New Hanover farmers, however, do not stand especially for broad acres. Rather they prefer small farms and conducted on the intensive idea. This is another victory. The annual fair has served all interests in both Wilmington and New Hanover county a good purpose in the past, and we now want to see the citizens of both the city and adjoining counties rally to the support of the corn show and agricultural fair this season. This much done and success is already assured.

"Exhibits in the past have been in the highest degree creditable, eliciting the warmest praise on all sides and commanding the best thought of all our people. Let the farmers this year redouble their efforts to excel all previous exhibits and all will be well. The 'Made in Wilmington' exhibit will be a practical demonstration of putting our best foot foremost at a most opportune time."

MEDICAL INSPECTION OF SCHOOLS.

Dr. Chas. T. Nesbitt and Miss Christie Pinner Begin Visits.

Dr. Chas. T. Nesbitt, county health officer, and Miss Christie Pinner, public health nurse, have begun their round of the schools on a health inspection tour. They visited the William Hooper yesterday and in a few days will visit all the schools of the city. They are undertaking a very important work in improving health conditions in the schools and much benefit is expected to result from it.

ANNUAL BUSINESS MEETING

Cape Fear Country Club Elected Officers Last Night—Increased Interest in Ancient Game.

The Cape Fear Country Club held its annual business meeting at the club house last evening and officers for the ensuing year were elected. There has been an increased interest in the ancient game during the past summer and the outlook for the coming season is most encouraging. It was the unanimous sense of the meeting last night that an 18-hole course is needed and it is likely that steps to this end will be taken in the near future.

The officers for the ensuing year are as follows:

President—Mr. J. F. Sears (re-elected).

Vice President—Mr. John R. Murchison (re-elected).

Secretary and treasurer—Mr. R. C. James (re-elected).

Captain of Greens—Mr. B. H. Bridgers.

Captain of Tennis—Mr. G. E. Kidder (re-elected).

Messrs. W. A. French and J. F. Roache were elected as members of the governing board. The officers of the club are also members of the board.

TO HOLD QUARTERLY MEETING

Wilmington Co-Operative Truckers to Meet Thursday Night.

The regular quarterly meeting of the Wilmington Co-Operative Truck Growers' Association will be held in the court house Thursday night at 8 o'clock. Notices to the members were sent out yesterday by Mr. William Gregerson, secretary of the organization. There will be a meeting of the directors at 7:30 o'clock Thursday night, a half hour previous to the meeting of the members. It is important that all members, as far as possible, attend the meeting.

Rotarians Meet Tonight.

There will be an important meetink of the Rotary Club tonight at 8 o'clock in the Atlantic Trust & Banking building, corner Front and Market streets. All members are urged to attend.

BOYS' LEAGUE ACTIVITIES

Addressed by Dr. Spillman, Sunday—Season Officers Elected—Orchestra Organized.

The Boys' League of the Y. M. C. A. Sunday afternoon was addressed by Rev. Dr. B. W. Spillman, field secretary for the Southern Baptist Sunday School Board. From the time Dr. Spillman began he held the undivided attention of his audience. His fund of jokes and apt illustrations made a hit with the boys, and they gladly heard his strong appeal for living at one's best. Dr. Spillman said boys had many small temptations to live at less than their best, and these temptations should be watched as closely as greater temptations.

Sunday was the day for the election of officers and the following were elected: President, Richard Thigpen; vice president, Howard Greer; secretary, William Ek; treasurer, Chas. Cavanaugh. There were three committees appointed: Speakers committee, Henry Tucker, chairman; music committee, William Murphy, chairman; advertising committee, Lenox Cooper, chairman.

One thing which will make the meetings much more interesting and helpful is the Boys' Orchestra, which was organized last week to play for the Boys' League. The boys in this orchestra play well and will insure a highly entertaining and profitable musical programme every Sunday. The orchestra is composed of Messrs. William Murphy, W. K. Noble, William Powell, Lenox Cooper, Henry McGowan, Stuart Hopkins, Jack Thompson, Carl and William Mahler and William Ek.

Miss Eunice Tucker was pianist last Sunday and contributed much to the success of the meeting.

So many of the boys have shown deep personal interest and zeal in these Sunday afternoon meetings for boys that the Boys' League has decided to continue them throughout the winter. All boys over 12, whether members of the Y. M. C. A. or not, are cordially invited to attend. There will be a live speaker with a strong message for boys, and a good musical programme every Sunday.

DISCOVERY DAY

Knights of Columbus to Commemorate 423rd Anniversary.

A celebration will be held tonight in the form of a smoker at Knights of Columbus Hall on North Third street in commemoration of the fact that the vast riches of the American continents were discovered for the congested nations of Europe just 423 years ago today, by Christopher Columbus.

More interest has been manifested in this day all over America this year and last than had been noticed for many years back. It is interesting to note that the reverence is more keenly felt by those who came over more recently than did the explorers who first established themselves here, because of their recollection of the fact that had America not been discovered, all the peace loving American people would have now been where war is raging.

A feature of the evening will be the talk by Rev. Father C. Dennen on the "Life of Christopher Columbus." All local knights are anticipating a good time and a fitting respect will be paid to the discoverer of this great country of the peaceful and the free.

MURCHISON BANK CIRCULAR.

Interesting Publication in Connection With National City Bank.

The Star has with the compliments of the Murchison National Bank, of this city, a highly valuable circular which is issued regularly through this institution by the National City Bank, of New York, its correspondent in that great financial center. Those desiring this circular sent to them regularly will receive it without charge upon application.

The circular treats the whole scope of United States securities, Government finance and economic and financial conditions of the country generally by perhaps the highest authority in the United States and it is highly informative and invaluable to those who make a study of conditions both at home and abroad. A wealth of statistics are given and the number of the circular just issued deals extensively with credits and with special reference to the Federal Reserve Banks. It is a valuable publication and one which should be in the hands of investors and business men generally.

MACCABEES TONIGHT.

Fall Reception of Cape Fear Tent at Odd Fellows' Hall.

The reception tonight of the Cape Fear Tent, No. 15, Knights of the Maccabees, in the Odd Fellows' Hall, corner of Third and Princess streets, is expected to be one of the really pleasant occasions of the season. Many members of the order will bring their lady friends, and others will bring gentlemen friends.

The committee of arrangements, composed of Messrs. L. S. Mixon, S. G. Nelms and M. A. Dukes, have sent out the invitations and have prepared a splendid programme, music for which will be furnished by the West-Whitlock orchestra. Delicious refreshments will be served and a real good time is anticipated.

EXHIBITS NEARLY READY

Shipped to Raleigh Thursday—Manufactured Articles Requested.

The agricultural exhibit of New Hanover county which is to be taken to Raleigh for the State fair will be sent Thursday of this week. The exhibits must be ready before that time, and it is expected that New Hanover will have a good showing. The exhibits should be left at the Atlantic Coast Line freight station.

A number of the manufacturers of Wilmington have already prepared their exhibits, which will likely make an excellent advertisement for them. Others are asked to send along exhibits, and those wanting to make exhibits are asked to call the Chamber of Commerce.

AFTER "CRAP SHOOTERS"

Sheriff Cowan and Deputies Make Search for Colored Gamblers.

Sheriff Cowan and several of his deputies made a thorough search Sunday afternoon in the vicinity of Sunset Park for some negro gamblers, said to have been shooting crap in the woods. However, nothing was seen of them and Sheriff Cowan returned to the city late in the afternoon.

This is not the first time that Sheriff Cowan has had reports that negroes were utilizing the woods in the suburbs of the city for Sunday afternoon gambling parties but he is determined to break up the practice. He expects to take as much time as may be necessary to stop it.

JIM EDWARDS GETS 90 DAYS

Recorder's Court Busy Yesterday Disposing of Sunday's Cases—Driving Ordinance Today.

The Recorder's court was busy yesterday disposing of the accumulated cases from Saturday night and Sunday. Jim Edwards, colored, drew two sentences amounting to 90 days. He was given 60 days for assaulting a female and 30 days for disorderly conduct. Sarah Howard, colored, had the misfortune of not having sufficient cash to pay the costs in a case of assault. She was sentenced to spend a month at the county farm, unless she is able to get the money to pay up.

Josephine Peterson, colored, who was charged with shooting at her husband, Frank Peterson, was called but as Peterson was the only witness against her and he has taken French leave since finding that his wife has sworn out a warrant charging him with beating her with a bed slat, the State had to take a nol pros with leave.

Otto Wilson, colored, was taxed with the costs for disorderly conduct. Among the several offenders taxed with costs for being drunk, Gary Davis, colored, was found in default of the cash and was sent to the roads for a term of 30 days. The State took a nol pros in the case of John Holland, colored, charged with vagrancy.

Another half dozen men were up yesterday for violating the driving ordinance. These with the long list from Saturday will have hearings today and Recorder Empie will render his decision.

Y. M. C. A. EDUCATIONAL WORK WILL OPEN TONIGHT.

Meeting of Instructors Was Held Last Night.

The educational work of the Young Men's Christian Association will open tonight in the educational department of the building, Nos. 305 and 307 Market street, and the outlook for a most successful season is very encouraging. The teachers of the different classes met with the educational committee in the office of the City Boys' Secretary last night and completed plans for the opening of the school tonight.

Those present were J. Lawrence Sprunt, chairman of the educational committee; C. C. Cashwell, who will have charge of the elementary department; Lewis Williams, who will teach the commercial students; H. C. McCarl, who will teach elementary, mechanical and architectural drawing, also Mr. Odis B. Hinnant and Secretary Huntington. Mr. E. Gomez Mena, who will teach Spanish could not be present.

Mr. Hinnant spoke of the wonderful possibilities of educational work among the boys and young men of the city. Mr. Huntington told of what the other associations are doing along educational lines, and outlined the plans already formulated for the work here this winter. Each member of the committee had a number of splendid suggestions to make.

The work of the educational committee of the Association is very important in that it takes care of the reading matter and books placed in the library, in looking after the educational work in the building, in seeking to establish extensive educational work in the outlying districts of the city, in organizing and promoting educational lecture courses, and promoting literary and debating clubs.

It is planned by the Association this winter to have each student take the examinations as sent out by the International Committee at New York, certificates being awarded those who are successful in passing. Outside of the regular studies, there will be devotional exercises and also social events where all the student can come together for evenings of pleasure. There will be a slight change made in the cost of the different classes this year, this being that boys instead of paying tuition for the different classes will take a regular membership in the Association, payment of which is made easy upon request. This membership entitles the member to the general privileges and either the educational or physical privileges of the Association. If the member desires both the educational and physical department privileges and additional half-fee will be charged.

The courses which will be taught this year are elementary reading, writing, arithmetic and spelling, commercial bookkeeping, penmanship and stenography, elementary mechanical and architectural drawing and Spanish. The charge made for the course in Spanish varies somewhat from the charges for the other courses, in that the cost for this course will be $10. All students to be members of the Association.

The educational committee of the Association wish to meet all young men and boys who will take work this winter at the Association building, tonight at 8 o'clock promptly, at which time courses will be outlined and information regarding books given out.

Real Estate Transfers.

The following deeds were filed for record yesterday: W. W. Wright and wife to Sallie M. Floyd, for $800, lot on south side of Castle street, 133.5 feet from Delgado stone, 33x110 feet in size. Mrs. Rosa Nash Penny, of Raleigh, to F. J. Gooding and wife, for $100 and other considerations, lot on east side of Fifth street, 66 feet south of Swann; Southwestern Realty Company to J. O. Ormsby, for $200 and other considerations, lot on west side of 15th street, 121 feet south of Castle, 33x155 feet in size; Wilmington Suburban Company to B. A. Mauney and wife, for $10 and other considerations, lot on east side of Fourth street, 165 feet south of Marsteller, 33x150 feet in size.

NO DIFFERENCE

The Proof is Here the Same as Everywhere.

For those who seek relief from kidney backache, weak kidneys, bladder ills, Doan's Kidney Pills offer hope of relief and the proof is here in Wilmington, the same as everywhere. Wilmington people have used Doan's and Wilmington people recommend Doan's, the kidney remedy used in America for fifty years. Why suffer? Why run the risk of dangerous kidney ills—fatal Bright's disease. Here's Wilmington proof. Investigate it.

W. L. Bissinger, salesman, 101 N. Sixth St., Wilmington, says: "I have found Doan's Kidney Pills all that is claimed of them. I take a box occasionally, when I notice my kidneys are a little off, and they always give splendid satisfaction. Doan's Kidney Pills can't be beat, and I don't hesitate in saying so to anyone who wants to know of a good, reliable kidney medicine."

Price 50c, at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills—the same that Mr. Bissinger had. Foster-Milburn Co., Props., Buffalo, N. Y.

• • •

The Ladies Foreign Missionary Society of the First Presbyterian church will hold its regular monthly meeting this afternoon at 4 o'clock in the church parlors. All ladies of the congregation are invited to attend.

• • •

Mr. B. Farah, of Rock Hill, S. C., and Miss Mary Simon, daughter of Mr. and Mrs. John Simon, of this city, were married Sunday afternoon at 4 o'clock at St. Mary's Pro-Cathedral, Rev. Father C. Dennen officiating. Mr. and Mrs. Farah are making their home at the Wilmington Annex.

• • •

Circle Four, of the Luther League, of St. Paul's Evangelical Lutheran church, gave a very enjoyable automobile ride to Wrightsville Sound last evening. There were a large number of young people who took the trip. On their return refreshments were served at the Luther Memorial building, corner Sixth and Princess streets.

• • •

Mrs. H. C. Irwin, after spending the summer here and at Wrightsville Beach, leaves this morning for Richmond, Va., to be the guest of her son, Mr. Ted C. Irwin, for a few weeks, after which she will go to Wilmington, Del., where she will visit her son, Mr. J. Preston Irwin until some time in November when she will return to her home in Charlotte.

• • •

MR. D. C. PAGE WEDS CHARMING CLINTON GIRL.

Mr. D. C. Page, of this city, and Miss Annie Wright Register, of Clinton, were married at the home of the bride Sunday afternoon at 2:30 o'clock. The ceremony was performed by Rev. James Thomas, pastor of the Presbyterian church at Clinton. Only a few intimate friends were in attendance at the wedding.

The happy couple are spending some time here at the home of the groom's parents, Mr. and Mrs. D. N. Page, No. 419 Grace street. They will leave in a few days for Richmond, Va., to make their home in that city.

• • •

FIRST AUTUMN ACTIVITY OF RED CROSS SOCIETY

The Wilmington Red Cross Society will hold its first fall meeting tomorrow morning at 11 o'clock in the assembly hall of the Y. M. C. A. A feature of the meeting will be a report from Mrs. Cuthbert Martin, president of the society, on the tuberculosis conference, held last Friday and Saturday at Columbia, S. C. This report will be very interesting. A paper she read before the society at Columbia will be the only one published in the State Health Bulletins of South Carolina. It is hoped that there will be a large attendance.

• • •

MISS ANNIE CLYDE PARKER TO BE BRIDE OF MR. PARKER

A wedding of much interest here and over the State is that of Miss Annie Clyde Parker, daughter of Rev. A. J. Parker, pastor of Fifth Avenue Methodist church, to Rev. Robert Grandison Lee Edwards, pastor of the Yanceyville Methodist church, Yanceyville, N. C., son of Dr. D. C. Edwards, a prominent physician of Hookerton, N. C., which takes place this morning at 7 o'clock in Fifth Avenue church. Rev. L. E. Thompson, presiding elder of the Wilmington district, will perform the ceremony, assisted by Rev. A. J. Parker, father of the bride.

The church will be decorated as nearly as possible the same as is used for the regular Sunday services. The bride will be accompanied by her maid of honor, Miss Nellie Whitfield, of Franklin, N. C. Her costume will be a dark green traveling suit, and her bouquet will consist of Bride roses and lilies of the valley. The maid of honor will wear yellow crepe de chine and will carry white chrysanthemums. The bride will be given away by her brother, Rev. S. A. Parker, pastor of Epworth Methodist church, of Raleigh. Miss Fannie Brown Edwards, of Hookerton, N. C., will sing, "For Love's Sweet Sake," by R. M. Stults. The groom will be accompanied by his best man, Rev. R. B. Slaughter, of Murphreesboro. Mr. H. K King and Mr. L. B. Parker, brother of the bride, will be ushers and Master LeRoy C. LeGwin will be ringbearer.

The groom's gift to the bride was a brooch of genuine amethyst and pearl. The happy couple, who are the recipients of many wedding presents, leave today for western North Carolina, where they will spend their honeymoon. They will be at home after November 1, at Yanceyville, N. C.

The bride is one of Wilmington's most charming young ladies and the groom is a well known preacher of the North Carolina Methodist Conference.

For Sallow, Blotchy, Rough or Greasy Skin

Some skins require constant grooming to keep them from becoming oily, muddy, blotchy or rough, or if such condition has developed, to overcome it. In such chronic cases it is particularly inadvisable to keep piling on cosmetics which clog the pores, collect dust and dirt, making the complexion worse than ever. It's a lot more sensible to use ordinary mercolized wax, which literally absorbs a bad complexion. Apply the wax, like cold cream, before retiring; next morning in washing it off, you'll wash away fine, flour-like particles of the unsightly cuticle. Repeat for a week or two and you'll have an entirely new skin—soft, satiny, spotless and beautiful as a child's. One ounce of mercolized wax, procurable at any druggist's, is all you'll need.

If the skin be wrinkled or flabby, here's the best possible remedy: Mix ½ pint witch hazel and 1 ounce powdered saxolite and use as a face bath. It works like a miracle, yet is entirely harmless.

LOCAL DOTS.

—The Baltimore & Carolina steamer Matilda Weems, Captain Hall, arrived here yesterday from Baltimore.

—The fall and winter schedule of the Tidewater Power Company, published several days ago, became effective yesterday.

—The Salvation Army makes request for old clothing as the winter season approaches. Adjutant Mataxas says they will appreciate gifts very much.

—Three pieces of property on Market street near Fifteenth were sold at public auction yesterday at the court house, being bid in by Dr. Ernest S. Bullock for $5,500. Mr. George Honnet had mortgages on the property.

PERSONAL PARAGRAPHS.

—Rev. R. G. L. Edwards, of Yanceyville, was a guest at the Orton last night.

—Rev. B. B. Slaughter, of Murphreesboro, was registered at the Orton last night.

—Mr. C. L. Short, of Newbern, was in the city yesterday, registered at Hotel Wilmington.

—Mr. C. W. Speer, of Charlotte, spent yesterday in Wilmington, stopping at Hotel Wilmington.

—Mr. J. H. Bradley, of Richmond, Va., is in the city for a few days, a guest at the Wilmington Annex.

—Messrs. C. L. Capps and G. F. Meadows, of Wilson, were in the city yesterday, guests at Hotel Wilmington.

—Messrs. Coy Formyduval and J. L. Bateson, of Whiteville, were among the visitors in the city yesterday, who registered at Hotel Wilmington.

—Adjutant Mataxas, of the local corps of the Salvation Army, leaves today for Philadelphia to attend a conference of the army officers.

—Mr. J. D. Jones, who has been in charge of the lunch counter at Hotel Wilmington, has resigned his position to go to Henderson, where he becomes night clerk at the Vance Hotel.

—Solicitor W. E. Brock, of Wadesboro, was in Wilmington yesterday on professional business, a guest at the Orton. Mr. Brock was formerly secretary of the State Democratic Executive committee.

—Among the North Carolina arrivals at the Orton yesterday were: C. A. Conway, Raleigh; G. S. Dewey, Goldsboro; R. D. Dickson, Council's; A. H. Newell, Rocky Mount; A. J. Hines, Wilson; John J. George, Cherryville.

—Mr. A. E. Garland, of Fairbanks, Morse & Co., Chicago, Ill., is in the city on business, in company with Mr. M. D. Tindall, salesman for the company, with headquarters in Charlotte. Mr. Garland says business is improving all through the South.

UNIVERSITY DAY

All Alumni of the University of North Carolina Celebrating.

University men all over North Carolina are celebrating today as the birthday of their alma mater. It is a holiday on the campus of the institution and speeches will be made, but the biggest thing of all is that the boys will get together for some organized college yelling for the first time since the actual work of the year has commenced. It is their first red letter day and even the timid little freshmen will enjoy cutting all classes.

Alumni associations all over the State are meeting, some last night and some will meet tonight. Wilmington alumni will meet tonight, at 8 o'clock at the Elks' Temple on North Front street. Louis Goodman, Marsden Bellamy, C. C. Loughlin and J. O. Carr, Esqs., are the committee in charge and assure a most enjoyable time.

MORE LAND FOR THE CUSTOM HOUSE HERE.

Col. Walker Taylor Will Investigate Buying Review Job Property.

Col. Walker Taylor stated yesterday that the government was delaying opening bids for the construction of the new Custom House, because there was a need of additional land. The tract known as the Review Job office property was needed before to make the property line uniform and there were plans for buying it. Bids were to have been opened Saturday at Washington, D. C., but were delayed.

Colonel Taylor said yesterday that he would get busy and see what could be done to get the property and start the work of constructing the new building as soon as possible.

NEW ORLEANS CARGO SHIPPED

British Steamer to Haul Cotton Seed Cake to Copenhagen.

It is interesting to the people of Wilmington to note that the steamer, Carl Kanckle, which will arrive today at the Seaboard terminals, is a British steamer here to take a cargo of cotton seed cake, exported by a New Orleans firm. It will take 2,800 tons of this cake and sail for Copenhagen, Denmark.

This is the first steamer to arrive this season for a cargo of this kind. All the recent tramp steamers have carried cotton lint, but the seed export had not begun until recently.

DIES AT HOSPITAL.

Mr. C. M. Kelly, of Clarkton, Was Shot at Clarkton a Week Ago.

Mr. C. M. Kelly, of Clarkton, died Sunday night at the James Walker Memorial Hospital as a result of a gun shot wound, inflicted at Clarkton about a week ago. Mr. Kelly was getting along nicely until some little time before the end, when a serious infection set in. The body was turned over to Mr. W. E. Yopp, the undertaker, and sent on the 4:05 Seaboard Air Line train yesterday afternoon to Clarkton, where funeral and burial will be made today.

BOARD OF EDUCATION MEETS

Probable Solution of Distribution of School Children in Wilmington Reached—Extra Teachers.

What is hoped to be a satisfactory solution of the distribution of the school children of the city of Wilmington was reached at the regular monthly meeting of the Board of Education yesterday afternoon. The district boundaries will not be changed but children living in certain sections will be requested to change schools in a way that will be most convenient to them. It was decided to employ three extra teachers for the Hemenway and Union districts.

Chairman J. O. Carr presided at the meeting and the other members, Messrs. J. G. L. Gieschen and S. Solomon, were also present. The usual routine business was transacted.

The following resolution was adopted by the board with reference to the distribution of the school children of the city:

"Whereas, the children in the different city schools and in the different grades are not evenly distributed and the Board of Education is not desirous of changing the boundaries of the districts at this time, if it is possible to adjust the matter without so doing;

"It is therefore Resolved, That the superintendent and principals of the city schools be authorized to make a distribution of the pupils most satisfactory to the public; and the Board of Education will permit and do request pupils in the Isaac Bear district nearest the Hemenway, north of Market street, to volunteer to go to the Hemenway school, especially those belonging to the first, second apd third grades, thus making more room in the Bear School for other pupils; and the board also permits and requests children in the Union school district nearest the Bear school and especially east of Eighth street, of all grades to attend the Bear school, and children living between Market and Dock streets in the Union district, except the fourth and fifth grades, to go to the Hemenway, thus relieving the crowded condition of the Union.

"All children below the sixth grade between 11th and 17th streets and south of Castle street will be permitted and are requested to enter the Bear school, thus relieving Delgado and William Hooper schools.

"No children are expected to change their schools without first getting permission from their teachers.

The resolution authorizing the employment of three additional teachers is as follows:

"Resolved, That an extra fifth grade teacher, and extra sixth grade teacher, and an extra seventh grade teacher be employed for the children in the Hemenway and Union districts, and that the superintendent of city schools and principals of the Union and Hemenway and committeemen be authorized to distribute the teachers and children between the two schools most conveniently for patrons, and that in selecting the teachers preference be given to those showing evidence of the highest qualifications and especially those having normal school training.

The board also authorized the superintendent of public instruction to allow the Winter Park school to close a half hour earlier each day. The school committee of Wrightsville school were authorized to employ an assistant teacher, so long as the attendance justifies it.

MOTHER DIES AT SUMTER.

Many Friends Sympathize with Mr. O. M. Maye in Bereavement.

It was sad news to many friends in the city yesterday to hear of the bereavement of Mr. O. M. Maye, sub-station operator for the Tidewater Power Company at Wrightsville Beach, in the death of his mother, Mrs. Susan Caroline Maye, which occurred Sunday evening at Sumter, S. C., at the family home. Mrs. Maye was 63 years of age and had for eight years been an invalid, in which she bore her suffering nobly. She was the mother of 18 children, four boys and six girls of whom survive. She was a member of the First Methodist church of Sumter and a devout Christian. She was widely known and much beloved by all who knew her.

WARDEN T. P. SALE HEARD

Carolina Man Denounces Administration Through Force or Fear.

Oakland, Cal., Oct. 11.—Prison discipline, administration through force or fear, destroys all the good intended according to a report on that topic made to the convention of the American Prison Association today by T. P. Sale, warden of the state prison at Raleigh, N. C.

"Discipline in prisons," said Mr. Sale, "should be the same as in any other place. Whatever punishment is administered to the prisoner should be after you have convinced him that he has violated the rules, done wrong, and that his punishment is necessary if good prison discipline is to be maintained. Always be careful to let him understand what is done is for his good and not because you have the power to do so.

"Good discipline is necessary for the government of any organization whether it be penal, industrial or otherwise. Many inmates are serving time for lack of training and discipline in early life which resulted in a disregard for all law and authority. Only strict discipline can overcome habits so formed. The above principles apply outside of prison walls as well as inside, and are necessary to success for the management of free men as well as prisoners.

"What is needed is good discipline, minus the fads and theories" based on principles that would help the inmates to rely upon their sense of honor in not betraying a trust, thereby building the foundation for the forming and strengthening of character, so that they may reclaim their places in society when released.

"Conditions and circumstances make prisoners. There are, in my opinion, few men in prison today who, if given proper treatment and proper management, but that would show their appreciation of such treatment by rendering in return the best service in them. Prison authorities should be careful to instruct prisoners to do right because it is right, and not through force or fear.

"Prisoners are human beings and are like other men. Human nature is the same the world over. If prison officials receive kind treatment it is their nature to reciprocate—it is the same with prisoners. If superintendents and wardens and officers would learn well these things it would go a long way toward solving the management and control of prisoners.

"There are many things which aid prison management in maintaining good discipline. Prisoners allowed to see all daily and weekly papers, unlimited writing privileges, amusements and entertainments, out-of-door recreation, good library and schools, and religious services, and many other things are helpful to the management in the government of prisoners.

"Prisoners as a rule resent any innovation in rules, but I believe if they could, under some well-defined law, be allowed in addition to what most prisons already allow, extra commutation money and good time for extra good service rendered by the individual who realizes that it is to his interest to render the very best service, that it would be an incentive to do their very best at whatever work is assigned them, and I believe that it would very materially aid prison management in maintaining good discipline."

ST. JOHN'S LODGE, NO. 1, A. F. & A. M.

Stated communication this (Tuesday) evening at 8 o'clock, sharp, for the purpose of attending to business affecting the Lodge.

All members and visiting brothers will be greeted with cordiality.

By order of the Master.

A. S. HOLDEN, Secretary.

SAN FRANCISCO EXPOSITION

NEW DISINFECTANT FOUND

United States Hygienic Laboratory Announces Discovery of New Compound from Pine Oil.

The announcement made the past week by the United States Hygienic Laboratory of the discovery of a new disinfectant which can be manufactured from pine oil, a by-product in the manufaeture of turpentine, will be of particular interest in this section, where the pine grows in large numbers. One of the chief merits of the new compound is its cheapness. It is also claimed that it is superior to many of the products of this nature now on the market.

The announcement by the Hygienic Laboratory of the United States Public Health Service, is as follows:

"As a result of experiments conducted at the Hygienic Laboratory of the United States Public Health Service it is announced that a new disinfectant, possessing qualities superior to ordinary disinfectants, has recently been discovered. The announcement is particularly important at this time, coming as it does in the face of the shortage of coal tar derivatives which has resulted from the European conflict.

"The new preparation is derived from pine oil, a by-product in the manufacture of turpentine. It is easily prepared by mixing certain proportions of the oil with rosin and sodium hydroxide solution, the finished product being a reddish-brown liquid, rather thick and oily in appearance but free from turbidity. With water it makes a perfectly white emulsion, much resembling milk. It has a pleasing odor, no objectionable taste, and attacks neither fabrics nor metals. It possesses over four times the disinfectant properties of carbolic acid and is altogether non-toxic, so that it may safely be used as a throat spray or mouth wash in solutions of the ordinary strength. The cost of the preparation is remarkably low as it can be manufactured for less than 50 cents a gallon, solely from products which are produced in this country.

"Many of the disinfectants now on the market are neither efficient nor economical, it having been demonstrated that a number of the most expensive and widely advertised are extremely weak in disinfecting power, so much so that their strength is undeterminable by ordinary methods. The sale of compounds of this nature constitutes a fraud. A second class of proprietary preparations are of guaranteed strength, thus putting a legal responsibility upon the manufacturer, but the cost of these per unit of disinfecting power is frequently excessive. The householder is therefore often at a loss to select a disinfectant which is efficient, economical and of constant strength and it is believed that this new compound, which is to be known as 'Hygienic Laboratory Pine-Oil Disinfectant,' will become one of the most useful preparations of that character."

Death of Infant Son.

Friends will tenderly sympathize with Mr. and Mrs. R. C. Cottle in the death of their infant son, which occurred at their home at Seagate yesterday morning at 7 o'clock. Funeral services will be conducted this afternoon by Rev. O. N. Marshall, pastor of the Seagate Baptist church, interment to be made in Wrightsville cemetery.

Gone to Georgetown.

The Clyde Line steamer Cherokee sailed yesterday afternoon for Georgetown, after arriving here in 48 hours after leaving New York, which is considered a quick trip at this time of year.

ITCHING NEARLY DROVE A WHOLE FAMILY CRAZY

Kansas City, Mo., Oct. 24, 1914:—"My husband had a rash all over his body, and soon the WHOLE FAMILY was in the same condition. It looked scaly and raised up on the arms and body in big bumps. This trouble burned and itched so that it would nearly drive one crazy. It was always worse at night, so we could not sleep. We all had this trouble for about two or three years, and during that time tried many remedies and prescriptions with no results. We tried Resinol Ointment and Resinol Soap and it RELIEVED AT ONCE, and before the third jar of ointment had been used, we were all completely cured. It has been four months since we were cured, and there are no traces of the trouble."—(Signed) Mrs. S. A. Clarkson, 1520 Lawn Ave.

Every druggist sells Resinol Ointment and Resinol Soap, and physicians have prescribed them for 20 years in the treatment of skin troubles.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui *today.* Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

STRONG ADVANCE IN COTTON

Market Very Active at Times, January Contracts Going to 12.84 Compared With 12.53 Saturday.

New York, Oct. 11.—Cotton today was very active at times with a resumption of bull support on a large scale and a strong advance in prices which carried January contracts up to 12.84 against the closing figures at 12.53 Saturday. Scattered realizing in the last hour brought about a little reaction and final prices were 32 to 30 points net higher.

The market opened steady at eight points decline to one point advance. It was soon apparent that large interest were accumulating cotton and offerings, which at first were quite liberal, but soon disappeared, leaving the market almost bare of cotton and in a position to advance rapidly on any good buying movement. Wall Street houses, large local operators, and the South were among the most conspicuous buyers of today's advance which ran prices up fully $2.00 a bale from the low point of the forenoon.

The strength of the spot position in the South and a feeling that recent frosts had practically stopped all further growth in northern sections of the belt materially helped the bull position. At 12.84 for January scattered realizing appeared, causing a reaction of about 10 points in the last half hour.

Cotton futures closed steady.

LIVERPOOL COTTON MARKET.

Liverpool, October 11. — Cotton: Spot, easier; good middling, 7.36; middling, 7.04; low middling, 6.56.

Sales, 8,000; for speculation and export, 500. Receipts, 7,000. Futures, steady. October, 6.91½; October-November, 6.91½; November-December, 6.91½; December-January, 6.92; January-February, 6.93; February-March, 6.95; March-April, 6.96½; April-May, 6.98; May-June, 6.99½; June-July, 6.98; July-August, 6.96½; August-September, 6.83½.

NEW YORK DRY GOODS.

New York, October 11.—Cotton goods and yarns were firm today and moderately active. Wide sheetings advanced 2½ per cent. Cotton and silk goods were active. Dress goods were firm, with large mills selling at higher prices. Men's wear was firm and raw silk higher.

CHICAGO LIVE STOCK.

Chicago, October 11. — Hogs—Weak, at 10c. to 20c. advance; bulk, 8.20@8.75; light, 8.05@8.80; mixed, 7.90@8.90; heavy, 7.85@8.75; rough, 7.85@8.05; pigs, 5.25@7.50.

Cattle — Unsettled. Native beef steers, 8.60@8.75; cows and heifers, 3.00@8.40; calves, 7.75@11.50.

Sheep—Unsettled. Wethers, 6.00@6.75; ewes, 3.75@6.10; lambs, 6.75@9.00.

NEW ORLEANS COTTON.

Market Gains Strength and the Close Was at An Advance.

New Orleans, Oct. 11.—Cotton opened at a decline today but soon gained strength and rose nearly $2 a bale from the lowest on reports of frost damage in the belt. Late in the session the market lost part of the net gain when scalping longs were liberal profit-takers but the closing was 21 to 22 points over Saturday's final figures. The lower opening was due to a disappointing Liverpool cable. At a level 5 to 7 points down fresh long buying came in and the market made a show of pronounced strength. The official weather returns indicated temperature as low as 30 degrees at some points in the cotton region and the bulls claimed much damage had been done to cotton not yet matured. The most active months rose 35 to 40 points from the lowest levels where they stood 31 to 33 points over Saturday's close.

Cotton futures closing: October 12.17; December 12.43; January 12.61; March 12.87; May 13.02.

Spot cotton steady, unchanged; sales on the spot 1,555; to arrive 925; middling 12.00.

PRICE OF WHEAT ADVANCES

Effect of Possible Teutonic Advance Toward the Dardanelles—Other Leading Staples Rise.

Chicago, October 11. — Promises of the Teutonic advance toward the Dardanelles had a distinct effect here today, as an influence tending to lift the price of wheat. After a nearly continuous upturn, the market closed nervous, 3 to 3⅛c. net higher, with December at 1.04⅞@1.05, nad May at 1.06@1.08. Other leading staples, too, all showed gains. Corn, ⅝ to 1@1⅛c. Oats 3-4 ot 7-8 to 1c, and provisions, 10 to 45.

Grain and provisions closing:

Wheat—December, 1.04⅞; May, 1.06.
Corn—December, 57⅜; May, 59¼.
Oats—December, 37⅜; May, 39¼.
Pork — December, 15.40; January, 17.75.
Lard—November, 9.40; January, 9.62.
Ribs—October, 9.52; January, 9.60.
Cash grain:
Wheat—No. 2, red, 1.12⅛@1.13¼; No. 3, red, 1.07½@1.11¼; No. 2, hard, nominal; No. 3, hard, 1.05@1.09.
Corn—No. 2, yellow, 63@63½; No. 4, white, 60@60½.

THE FINANCIAL MARKET

New York, Oct. 11.—Mercantile paper 3 to 3 1-2; sterling 60 day bills 4.63.50; demand 4.67.75; cables 4.68.25. Bar silver 49 1-2. Mexican dollars 38 1-2. Government bonds steady. Railroad bonds strong.

Time loans firm; sixty days 2 3-4 to 3; ninety days 3 to 3 1-4; six months 3 1-4. Call money easier; ruling rate 1 3-4.

A. C. L. SHARES IN ADVANCE

Railway Stocks Again Make Substantial Gains—Revival of Interest in Some War Shares.

New York, Oct. 11.—Inquiry for standard shares in the stock market was resumed today, with further substantial gains in various railway issues, notably Canadian Pacific, Lehigh Valley, Louisville and Nashville and New Haven. Harriman and Hill shares, trunk lines and Reading denoted pressure. Later Atlantic Coast Line, Rock Island, Denver and Rio Grande and some other inactive stocks recorded variable advances.

Revival of interest in some of the high-priced war specialties which featured the later dealings, was regarded as a natural outcome of the increased complications arising from the Balkan situation. Baldwin Locomotive, Westinghoue, General Electric, Crucible Steel American Car and Bethlehem Steel common and preferred rose substantially.

United States Steel opened with 10,000 shares at 82 1-2 to 83, its record price for over four years, but fell back until the very final dealings, when it regained its top quotation on a sale of one block of 9,300 shares. Automobile issues shared in the rise, General motors gaining eight points and Willys-Overland going to 240. A reflection of the last turn in Mexican affairs was seen in the gain of 3 3-4 for Mexican Petroleum and 3 1-2 in American Smelting.

Among the few weak spots were Continental Can, which fell eight points, New York airbrake which fell 5 1-4 and General Chemical which lost nine points of its recent meteoric ascent. Specialties were at high levels in the final dealings.

Trading was on a very extensive scale throughout the session with a total of 1,320,000 shares.

Demand Sterling was again weak, selling 1 1-2c under last week's low quotation. Angio-French notes, on one small sale, were quoted at 98 1-8.

The bond market was firm at the outset, but eased off in the late dealings. Total sales par value aggregated $5,970,000. United States bonds were unchanged on call.

COTTON SEED OIL MARKET.

New York, October 11. — Cotton seed oil touched new high levels today on persistent buying of late months by the South, inspired by the scarcity of seed, advancing crude prices and strength in other commodity markets. Final prices showed net advances of 12 to 22 points. Sales, 42,400 barrels.

The market closed strong. Spot and October, 7.86@8.20; November, 7.90@7.93; December, 7.90@7.96; January, 7.99@8.00; February, 8.06@8.15; March, 8.21@8.22; April, 8.28@8.33; May, 8.37@8.39.

Butter—Firmer.
Cheese—Steady.
Coffee—Spots, quiet; Rio, No. 7, 7c.; Santos, No. 4, 9c.

NOT STORING COTTON.

Pender Farmers Are Selling—Big Difference in Business.

(Special Star Correspondence.)

Burgaw, N. C., Oct. 11.—The difference in the price of cotton this year and last is having a marked effect on business. Seed cotton has been bringing five cents a pound here, while at this time last year it could hardly be sold at two and a half. There is no cotton going into the farmers' warehouse here this season, whereas last year a large part of it was either stored there or carried home by the farmers.

Burgaw can boast an amateur poultryman in the person of Mr. H. L. Smith, Jr., who has made quite a success of the poultry business on a small scale. He breeds the Buff Orpingtons only and has as fine a lot as can be seen anywhere. He believes in the right kind of food and proper attention. He is getting from 18 to 20 eggs a day now while almost everybody else is getting no eggs. He feeds high and says it pays to do so.

THE WEATHER.

United States Department of Agriculture—Weather Bureau.

October 12, 1915.

Meteorological data for the 24 hours ending at 8 P. M., yesterday:

TEN COUNTY SCHOOL EXHIBITS

Progress to be Shown at the Fair at Kinston Next Month.

(Special Star Correspondence.)

Kinston, N. C., Oct. 11.—East Carolina schools will show the remarkable progress that they have made in recent years by a series of model exhibits at the ten-county fair here next month. Several cities and towns will enter exhibits, as well as the superintendents of a number of the counties. The State farm life school at Vanceboro will display splendid domestic science and agricultural specimens contributed by pupils. The consolidated school at Thurman, the latest thing in rural schools, to which children are transported from a wide range of territory in vehicles maintained by the school expense, will have an interesting exhibit, with pictures of the school and the methods of its operation.

JOCKEY FATALLY INJURED.

Karl Ganz Picked Up on Race Track in Unconscious Condition.

oatLnia, Ky., Oct. 11.—Jockey Karl Ganz, of Louisville, Ky., today was fatally injured at the Latonia race course here, following an accident in the first race of the day. As the horses were rounding the club house turn, there was a mix-up and two horses fell. Ganz was picked up in an unconscious condition and rushed to the hospital where he is reported to have little chance for recovery.

$3.80
Excursion to Sanford
On Account of the
Lee County Agricultural Fair

IN THE DISTRICT COURT OF THE United States for the Eastern District of North Carolina.

Baltimore Trust Company, Trustee, vs. Southern Seaboard Lumber Corporation.—In Equity. Ancillary Foreclosure Bill.

The report of M. A. O'Byrne, as Commissioner, under the decree of sale of July 16th, 1915 in the above stated cause as to the sale of the properties of the Southern Seaboard Lumber Corporation covered by said decree of sale, being presented to the Court,

IT IS THEREUPON ORDERED, CONSIDERED AND ADJUDGED that all parties interested show cause if any they have before me on the 18th day of October, 1915, at the District Court at Wilson, N. C., at 10 o'clock A. M. why the report of the Commissioner should not be adopted and the sale of the properties of the Southern Seaboard Lumber Corporation covered by said decree of sale confirmed to G. Roy Muller at and for the sum of Three Hundred Thousand Dollars.

IT IS FURTHER ORDERED that Alex. L. Blow, Clerk of this Court shall advertise a copy of this order daily for (10) ten days in the Wilmington Star, a newspaper published at Wilmington, N. C.

In open court New Bern, N. C., this 6th day of October, 1915.

H. G. CONNOR,
Judge U. S. District Court.

WILSON FORMALLY SANCTIONS ACTION OF THE CONFEREES

(Continued From Page One.)

did not belong to the ascetic devotion of the early devotees of those great principles. So they came to remind us of what we had promised ourselves and through ourselves had promised mankind.

Patriotism First Principle.

"* * * For my part, I believe that the constant renewal of this people out of foreign stocks has been a constant source of reminder to the people of what the inducement was that was offered to men who would come and be of our number. For we have come to a time of special stress and test. There never was a time when we needed more clearly to conserve the principles of our own patriotism than this present time. The rest of the world from which our politics were drawn seems for the time in the crucible, and no man can predict what will come out of that crucible. We stand apart unembroiled, conscious of our own principles, conscious of what we hope and purpose so far as our powers permit for the world at large, and it is necessary that we should consolidate the American principle. Every political action, every social action, should have for its object in America at this time to challenge the spirit of America; to ask that every man and woman who thinks first of America should rally to the standards of our life. There have been some among us who have not thought first of America, who have thought to use the might of America in some manner not of America's originative, and they have forgotten that the first duty of a nation is to express its principles in the action of the family of nations, and not to seek to aid and abet any rival or contrary ideal.

Neutrality a Negative Word.

"Neutrality is a negative word. It is a word that does not express what America ought to feel. America has a heart, and that heart throbs with all sorts of intense sympathies, but America has schooled its heart to love the things that America believes in and it ought to devote itself only to the things that America believes in, and, believing that America stands apart in these ideals it ought not to allow itself to be drawn, so far as its heart is concerned, into anybody's quarrel. Not because it does not understand the quarrel, not because it does not in its head assess the merits of the controversy, but because America has promised the world to stand apart and maintain certain principles of action which are grounded in law and in justice. We are not trying to keep out of trouble; we are trying to preserve the foundations upon which peace can be rebuilt. Peace can be rebuilt only upon the ancient and accepted principles of international law, only upon those things which remind nations of their duties to each other, and deeper than that, of their duties to mankind and to humanity.

Humanity—America's Cause.

"America has a great cause which is not confined to the American continent. It is the cause of humanity itself. I do not mean in anything that I say even to imply a judgment upon any nation or upon any policy, for my object here this afternoon is not to sit in judgment upon anybody but ourselves and to challenge you to assist all of us who are trying to make America conscious of nothing so much as her own principles and her own duty. I look forward to the necessity in every political agitation in the years which are immediately at hand of calling upon every man to declare himself where he stands.

"Is it America first, or is it not? We ought to be very careful about some of the impressions that we are forming just now. There is too general an impression, I fear, that very large numbers of our fellow citizens—born in other lands have not entertained with sufficient intensity and affection the American ideal; but their numbers are not large. Those who would seek to represent them are very vocal, but they are not very influential. Some of the best stuff of America has come out of foreign lands.

In Hurry for "Lineup."

"* * * I would not be afraid upon the test of 'America first' to take a census of all the foreign-born citizens of the United States, for I know that the vast majority of them came here be cause they believed in America and their belief in America has made them better citizens than some people who were born in America. They can say that they have bought this privilege with a great price. They have * * * * broken all the nearest and dearest ties of human life in order to come to a new land, * * * * and so, by self-sacrifice, express their confidence in a new principle; whereas it cost us nothing of these things. We were born into this privilege; * * * we did nothing to create it and it is therefore the greater duty on our part to do a great deal to enhance it and preserve it. I am not deceived as to the balance of opinion among the foreign-born citizens of the United States, but I am in a hurry to have an opportunity to have a lineup and let the men who are thinking first of other countries stand on one side, * * * and all those that are for America first, last and all the time, on the other side.

"We Are Constantly Hazed."

"Now you can do a great deal in this direction. When I was a college officer, I used to be very much opposed to hazing, not because hazing is not wholesome, but because sophomores are poor judges. * * * There are freshmen who need to be hazed, but the need is to be judged by such nice tests that a sophomore is hardly old enough to determine. But the world can determine them. We are not freshmen at college, but we are constantly hazed. I would a great deal rather be obliged to draw pepper up my nose than to observe the hostile glances of my neighbors. I would a great deal rather be beaten than ostracized. I would a great deal rather endure any sort of physical hardship if I might have the affection of my fellow men. We constantly discipline our fellow citizens by having an opinion about them. That is the sort of discipline we now to administer to everybody who is not to the very core of his heart an American. Just have an opinion about him and let him experience the atmospheric effects of that opinion. * * * *

Conviction Rules America.

"So it has seemed to me that my privilege this afternoon was not merely a privilege of courtesy, but the real privilege of reminding you * * * of the great principles which we stand associated to promote; and I for my part rejoice that we belong to a country in which the whole business of government is so difficult. We do not take orders from anybody; it is a universal communication of conviction, the most subtle, delicate and difficult of processes. There is not a single individual's opinion that is not of some consequence in making up the grand total and to be in this great co-operative effort is the most stimulating thing in the world. A man standing alone may well doubt his own judgment. * * * * He may even wonder if his own heart leads him right in matters of public conduct, but if he finds his heart part of the great throb of a national life, there can be no doubt about it. If that is his happy circumstance then he may know that he is part of one of the great forces of the world.

"I would not feel any exhilaration in belonging to America if I did not feel that she was something more than a rich and powerful nation. I should not feel proud to be in some respects and for a little while her spokesman if I did not believe that there was something else than physical force behind her. I believe that the glory of America is that she is a great spiritual conception and that in the spirit of her institutions dwell not only her distinction, but her power; and that the one thing that the world cannot permanently resist is the moral force of great and triumphant convictions."

The President's address was marked by frequent applause. As he entered Memorial Continental Hall, in which the meeting was held, a band played the "Star Spangled Banner," and the audience rose and clapped. He was introduced by Mrs. William Cummings Storey, president-general of the Daughters of the American Revolution. Mrs. Uorman Galt, the President's fiancee occupied a box above the stage.

SPECIAL ANTI-TOXIN SERUM MAY SAVE LIFE OF LAWYER.

George F. Stackpole, Suffering With Anthrax, Given Fighting Chance.

New York, Oct. 11.—The use of a special anti-toxin serum received tonight from Washington gave George F. Stockpole, the aged Riverhead lawyer, a fighting chance to recover from anthrax, a dread disease rarely contracted by human beings, but not uncommon among cattle and sheep.

Mr. Stackpole is said to be the first person to be treated with this serum, which was prepared for use among animals. Despite this, so great is the efficacy of the serum in curing cattle, that the opinion was expressed at the hospital where the lawyer is being treated that he had a chance to get well, although he was still in a critical condition.

Mr. Stackpole, who had believed death inevitable, was informed late tonight that he might recover. Throughout his illness the aged lawyer has faced death bravely and manifested an interest in matters outside his own case. Late today he sent his son out to buy newspapers containing the final score of the world's series baseball game between the Red Sox and the Phillies.

VILLA DESERTERS JOINING CARRANZA, IT IS REPORTED.

Villa Agent Denies Statement That His Chief Will Not Protect Foreigners.

El Paso, Texas, Oct. 11.—Andras Garcia, the Carranza consul here, declared today that he had advices of wholesale desertions of the Villa army mobilizing at Casas Grandes. One general, he said, had left there with 800 men during the last week to march to the nearest Carranza outpost and another general, backed by 2,000 men, was on the point of revolt.

Col. Hippolito Villa, financial agent of the Villa government at Juarez and brother of General Villa, issued an official denial of recent dispatches that General Villa, because of the recognition of the Carranza government, felt himself absolved from all responsibility for the lives and property of foreigners.

"General Villa said just before he left here," said Colonel Villa, "that Americans and all foreigners in this territory would continue to receive all the protection in his power to give them."

HAMLET UNION MEETING CLOSED

Most Largely Attended Revival Services in History of Town

(Special Star Correspondence.)

Hamlet, N. C., Oct. 11.—The revival services which had been conducted by Rev. J. W. Ham and his assistants for the past three weeks in a large tent here closed Sunday. The tent, which has a seating capacity of about 1,200, was filled at most of the services. On last Sunday afternoon at the services for men only there were at least 1,500 in attendance and at the night service an equally large number. There was a large number of converts and many joined the various churches.

Mr. Ham is a very forceful and entertaining speaker and while at times he becomes sensational he has drawn large congregations and the general opinion is that he has done great good here. There has never been such a revival in the town and there has never been a meeting with such large attendance.

Mr. Ham and his assistants left on Monday for Yorkville, S. C., where they will hold a revival.

EPISCOPAL RECTOR KILLS YOUNG MAN FOR BURGLAR

Was Son of Prominent Railway Man —Minister Not to Be Prosecuted.

New Orleans, Oct. 11.—Rev. Byron Holly, rector of St. George's Episcopal church, one of the most fashionable congregations in the city, early today shot and killed a young man in his home, who later was identified as Lansing Pearsall, son of a prominent railroad man of this city. Dr. Holley, in his report to the police, stated he shot the intruder in his home thinking he was a burglar.

Police Superintendent Reynolds stated no charge would be filed against Dr. Holley. Until three weeks ago the Pearsalls lived around the corner from the rectory and friends of Pearsall believed he mistook the Holley home for his father's residence.

TO COMPETE WITH JAPAN

China Enters Passenger and Freight Steamer Service Across Pacific.

San Francisco, Oct. 11.—With the formation here of the China Mail Steamship Company, China entered into competition with Japan today for passenger and freight trade between this port and the Orient. The capitalization of the company will be $10,000. The new company expects a subsidy from the Chinese government.

Simple Way to Have Beautifully Wavy Hair

Lustrous, fluffy, wavy hair plays an important part in the scheme of beauty. A heated iron should not be used to give the desired effect, for it destroys the life, lustre and fluffiness of the hair. It is far better to use plain liquid silmerine, which curls the hair more effectually, more lastingly, and at the same time keeps it beautifully soft, "light" and glossy. It is beneficial instead of harmful, and it is such a simple thing to apply the liquid before retiring, using a clean tooth brush for the purpose and drawing this down the hair from root to tip. Very different from the tiresome, fussy, odorous curling iron method.

Pure silmerine in liquid form may be found in any drug store and a few ounces will last a very long time. It is neither sticky nor greasy and leaves no sediment, spots or streaks. The hair will be quite manageable, no matter what the style of coiffure.

PEACE CONGRESS HEARS DR. JAS. A. M'DONALD

(Continued from Page One.)

touches territory, where sovereignty meets sovereignty, where nation salutes nation, but for a hundred years the international waters of those Great Lakes have been unfretted by any ship of war, those rolling prairies have been unmarked by any hostile fort, those majestic mountains have never echoed to the roar of any alien gun.

"Four thousand miles! For one hundred years! Tell me, you men from other continents, where in all the world is there a match for this that North America has done? Where is there a civilization so undishonored? Where is there a boundary so free? Where is there a history so worthy of record? Let Europe answer.

"Europe! From whom we inherited our civilization, whose two thousand years is our background, whose achievements were our inspiration. Europe! whose Christianity is in our creed, whose culture is in our colleges, whose hearts-blood is in our veins! Europe! bristling with guns from the Hebrides to the Dardanelles, bleeding at every boundary with death-wound none can staunch—O Europe! how often would America have come to you with the gospel of international good-will, teaching you the secret of Anglo-American peace, proving to you the power of international disarmament, and helping to gather your shattered nationalities into a united states of Europe! How often! But ye would not. Now, no matter who among you is to blame, we, too, must suffer in your agony. The national peace of this American Republic is threatened by your madness. The best red blood of the Canadian Dominion is being soaked into your battlefields because of the blood-guiltiness of your sin.

"But when this world-storm of Europe is past, when this red rain has enriched the roots of Europe's next verdure, the United States and Canada, their common democracy made stronger by their common experiences, shall come again into the council chamber of the nations, and, with the released democracies of the warring peoples of Europe, shall break the doors of the autocrats and the despots and the war lords and all that damning system of militarism that has cursed Europe for two thousand years.

"Before this world-war is over these two free democracies of North America shall have paid the price of war; it may be they shall have paid it in full, and it may be the United States as well as Canada shall have paid in blood. And then, not the United States and Canada alone, but all the democratic nations of the world over, shall have something to say to the war lords. And they will insist that the world is too small for war lords or for war; that in the world neighborhood of civilized nations there shall be no longer any room for the wild beasts of Europe's war jungle, and that the broken-down war-nationalisms of Europe shall give place to North America's international experiment."

FOREIGN EXCHANGE RATES DROP AGAIN

(Continued from Page One.)

serve Bank of New York; Frank A. Vanderlip and James H. Perkins, president and vice president, respectively, of the National City Bank; Charles H. Sabin, president of the Guaranty Trust Company; W. H. Porter of J. P. Morgan & Company; James Brown, of Brown Brothers & Company, and J. S. Alexander, president of the Bank of Commerce.

Foreign Exchange experts of several financial institutions also were present. These experts were reported to be unanimously of the opinion that there would only be one remedy left when the proceeds of the $500,000,000 loan would have been spent—the virtual elimination of the pound sterling as the standard of world finance and the substitution of the dollar instead, at least for the remainder of the war's duration.

A supplemental loan of $250,000,000, it was thought, could easily be floated under these conditions, if confined to banks and banking institutions and not offered to the general public.

Advocates of the plan were reported to have sought to convert Sir Edward to their idea. When he returns to Europe, it will be his task to place before the bankers of Great Britain the financial situation in this country. It was thought that he would face difficulties in convincing them that the time had come to subordinate the pound sterling, for generations the standard of international finance, to the dollar. His failure to do so, it was believed, might result in curtailment of British purchases in American markets through the fact that the rate on sterling would fall to a point where such purchases could be made more advantageously elsewhere.

NORTHERN SERBIS SCENE OF BATTLE

(Continued from Page One.)

north of Hill No. 70 and between Hulluch and the Hohenzollern redoubt the Germans suffered very heavy casualties especially near Hill 70, where they were mowed down by a combined rifle, machine gun and artillery fire, not a man getting within 40 yards of the British trenches.

The French war office, in a recapitulation of the operations for the week ended October 9th, says the French everywhere repulsed the German counter attacks to regain lost ground and that the French consolidated the positions won. German troops for this fighting, the statement adds, were "brought from everywhere, even from Russia, and men captured in the Artois and Champagne regions belonged to 93 different regiments."

PRESIDENT CONSIDERING FINALLY NOTE TO BRITAIN

Communication Regarding Trade Interference Practically Complete.

Washington, Oct. 11.—Final consideration was being given tonight by President Wilson to the note to Great Britain voicing the disapproval by the United States of British interference with American trade through the various orders in counsel. The communication, long delayed because the President did not wish to mix the American government's controversy with Germany with the case against Great Britain, practically is complete. No obstacle to its dispatch is evident now, since the submarine dispute with Berlin is considered virtually settled and it will go forth in a few days.

Officials guarded with secrecy the contents of the note, but it is known that the treatment by Great Britain of cotton, which has been declared contraband, and the actual operations of the order in council are discussed at length. In official quarters it is stated that the note is not an academic argument on the principles of the subject but a protest which the American government intends to press constantly in order that modifications of alleged illegal practices may be obtained.

SUIT TO RESTRAIN LOAN INVESTMENT

(Continued from Page One.)

vainly protested and that unless the court interferes the loan will have been made and the commissioners departed before any relief can be had. The bill alleges that 22 per cent. of the policy holders of the company are Germans or German-Americans.

WOULD BE LAWFUL.

Mutual Company's President Says They Have Right to Make Investment.

New York, Oct. 11.—Charles A. Peabody, president of the Mutual Life Insurance Company, of New York, when advised tonight by telephone at his home at Cold Spring Harbor, Long Island, of the suit brought by Mrs. Walsh, said:

"We have never thought of investing any sum like $10,000,000 in Anglo-French bonds. In fact, we have not yet invested a penny in them. The matter is under consideration, however, and it might be that we would decide to take $2,000,000 or $3,000,000 of the bonds, as they are doubtless a good investment. However, it would be entirely lawful for us to invest $10,000,000 or any other sum in the bonds, with reason, if we saw fit to do so."

Members of the Anglo-French financial commission, who are named as co-defendants with the insurance company, had heard nothing of the filing of the suit and evinced little interest in the matter. It was thought unlikely that the suit would delay their departure for Europe.

J. P. Morgan & Company likewise refrained from comment.

DAY IN WAR ZONE NOT EVENTFUL ONE

(Continued From Page One.)

man dictation in the initiative, saying: "If there is to be an expedition, it must be on a sufficient scale, and we must not weaken the west. The government, in other words, must have a clear idea of how to get new men in addition to those on whom it had previously counted."

Will Not Yield to Attack.

The attack on the Foreign Office and Sir Edward Grey, the foreign minister, promises to carry the country with it, as little as did the attack on Earl Kitchener. Sir Edward Grey is the most popular civilian in the country. The weaknesses of the British diplomatic service are new discovery. The diplomatic staff is largely composed of the old school aristocracy, who are unequal to dealing with the shifting and complicated problems and elusive politicians such as they encountered in the Balkans. The general disposition is to credit Sir Edward with going as well as possible with the lieutenants at his disposal.

Nevertheless, the diplomatic failure in the Balkans has given great impetus to the movement to throw overboard secret diplomacy and rebuild the staff of the diplomatic corps on a more democratic basis, which undoubtedly will be one of the foremost demands of the liberal masses after the war.

FIGHTING WAS VIOLENT.

Austrians Claim Russian Retreat in Volhynia and East Galicia.

Berlin, via London, Oct. 11.—Special dispatches from Austrian headquarters describe the attacks Saturday in Volhynia and East Galicia as particularly violent. All available troops were put into action on the whole front, the attacks continuing day and night. Regiment after regiment advancing in close formation was repulsed. Finally the Russians retreated.

The losses of some of the Russian divisions in East Galicia are estimated at about one-half the regimental strength.

Advices from the Serbian front report that a great battle is in progress to the south of Belgrade, and that the Germans and Austrians are continually moving forward.

REFUSE TO MEET STRIKERS

Copper Mine Owners Consent to Meet Only Select Committee of Five.

El Paso, Texas, Oct. 11.—The managers of the mines in the copper strike field of Clifton-Morenci, Arizona, today refused to meet a delegation of their striking employes, brought from Clifton by Sheriff Cash and Adjutant General Harris. They consented to meet a committee of five if selected from a list previously submitted to them, provided none was an official of the miners' union and at least two were Mexican miners.

Business Locals
